Police, Provosts Busy as Crowds Mill About Town

"All right, move on and keep the sidewalk clear," Const. Lyle Somers told John "Curly" Yeend as he tried to break up a group of youths, soldiers and sailors in the 700 block Yates Street last night. More than 2,000 people roamed downtown streets for about three hours before order was finally restored.

There is only one way to treat a person who believes in battling on street corners. Colonist photographer Jim Ryan caught this unusual picture of army provost corpmen escorting a youth to the shore patrol wagon. Seconds later Ryan had his camera broken. — (Colonist photos by Jim Ryan.)

Vancouverites Expected Here To Join Fights

Street Brawls Flare Again Third Time in Three Days

Vancouver youths have been invited by fighting Victoria youths to help them in their battle against servicemen, it was reported last night.

The warning came after Victoria's third outbreak of a street brawling in three days. In last night's demonstration about 300 servicemen and an estimated 100 civilians surged up and down Yates Street among more than 2,000 spectators.

Numerous small fights broke out but were quickly quelled by city police, naval shore patrol men and army provost corps members. The crowd expected something much worse. Both sides appeared to be spoiling for a fight. Had it got properly started a riot might have resulted.

IN HOSPITAL

Glen Willis, 16, 977 Humboldt Street, was admitted to Royal Jubilee Hospital at 10 p.m. with a deep cut on the left hand.

Willis was apparently pushed against a car, cutting his hand on a radiator ornament, police said. Willis was "officially" the only person injured, although civilian youths, sailors and soldiers admitted that some of their number suffered cuts and bruises to faces, fists and ribs from brawls.

One youth was hauled bodily from a boisterous, brawling crowd in front of the Topper restaurant at 9:40, resisting efforts of naval, military and city police on his way to the patrol wagon. He was detained by police but was not identified.

SOLDIERS TAKEN

Several soldiers were hustled from the crowd and turned over to the provost corps police said.

City officers, including Police Chief John Blackstock, were seen taking a youth for questioning from the Liberty Cafe.

Patrols of service and city police also extended through Beacon Hill Park and the C.P.R. wharf.

Dispersal of the servicemen, youths and onlookers began about 11 p.m., more than two hours after Yates, between Douglas and Blanshard, became plugged with pedestrians and cars. Police blocked Yates between Blanshard and Government and diverted traffic.

HAULED AWAY

Soldiers were taken back to Work Point Barracks and Gordon Head Army camp in trucks, yelling as they left, "We won, we won."

Four teen-age, gum-chewing girls were believed responsible for one fight in the 700 block Yates Street. Wearing tight-fitting ankle-length slacks, the girls stood toe-to-toe with a sailor and argued their boys were "not afraid to fight."

Blows were struck and one girl was trampled in the melee, losing her shoe, before police arrived.

John "Curly" Yeend, 16, Jack Karagianis, 17, and Dick Lewers, 17, told The Daily Colonist that Vancouver youths were expected here soon.

The report was reiterated later by four other youths, ranging in age from 19 to 22 years, who said "grapevine" told them the "Alma Dukes" were expected here.

The four older youths expressed disgust with city police action.

"On Yates, soldiers molested women with one knocked down, but city police standing there did nothing," they said. Soldiers were accused of using profane language.

The Vancouver gangs will be tougher, they warned.

"They started it more than two weeks ago," Yeend said. "We had nothing to do with it."

EXPECT WEAPONS

"We aren't trained to fight, and if they come they'll use brass knuckles, knives and other weapons."

All youths expressed resentment at being called "zoot-suiters." They had no particular name, weren't organized and didn't wear zoot suits, they said.

The Daily Colonist received two reports that the incidents started with soldiers. One 16-year-old, wearing "battle scars" from Sunday night, said:

"A couple of soldiers made monkeys out of our boys at a dance, joking about drapes. There was a fight."

Soldiers also were blamed for "moving in on the girl friends."

DENY BLAME

The four teen-agers disclaimed any Victoria responsibility for the incident, blaming it on a "transient Vancouverite," who argued and fought with the soldier, who in turned blamed local youths.

A second and third outbreak occurred last week-end. Mobile police squads were called out to break up the clashes, which followed incidents near the Y.M.C.A.

"We haven't had trouble at the dances," F. V. Shoemaker, general secretary of the Y.M.C.A., said yesterday. "We would, however, rather cancel the dances than have them marked as the source of the trouble."

The closure announcement followed identification of Pte. Wilson Schofield, R.C.A.S.C., who was admitted to H.M.C.S. Naden hospital suffering a gash over the right eye and lacerations about the mouth when attacked Saturday night.

Military and city police broke up the same factions Sunday night on Yates Street and later in Beacon Hill Park.

Destroyer Escorts To Be Built Here

Yarrows, Ltd., and Victoria Machinery Depot Co., Ltd., each have been awarded a contract to build a destroyer escort vessel for the Royal Canadian Navy, it was announced in Ottawa last night.

The ships will be two of 12 new ships ordered for the navy, at a cost of approximately $60,000,000.

They are in addition to 27 ships already under construction in Canadian yards at a cost of approximately $96,000,000.

The additional orders provide for construction of seven destroyer escorts, one loop layer (a type of mine layer), two steel crane lighters, and two modified Norton class tugs.

MOST FOR DESTROYERS

Most of the outlay will be expended on the destroyer escorts, estimated to cost about $8,000,000 each.

The new contracts for local shipyards will result in a substantial increase in shipbuilding employment here.

"It will certainly boom things for British Columbia shipyards," commented H. A. Wallace, vice-president of Burrard Dry Dock Co. Ltd., and head of Yarrows Ltd. "It is difficult to estimate now just how long it will take to complete the contracts. That will depend on when the navy wants them."

"But I think it would be at least a two-year job, depending on supply and manpower situations."

VANCOUVER JOBS

Another destroyer escort will also be built at Burrard Dry Dock Co. Ltd., Vancouver. One steel crane lighter will be built at Pacific Dry Dock Co. Ltd., Vancouver.

(Burrard Dry Dock Co. Ltd., Pacific Dry Dock Co. Ltd., and Yarrows Ltd. are all amalgamated under the presidency of Clarence Wallace.)

One additional escort vessel will be built by Marine Industries Ltd., Sorel, Que.

Others will be built at Canadian Vickers, Ltd., Montreal, and at Davis Shipbuilding and Repairing Co., Ltd., Lauzon, Que.

The loop layer will be built by George T. Davis & Sons, Ltd., Luzon, and the second steel crane lighter will be constructed at Saint John Dry Dock Co., Ltd., Saint John, N.B. The latter yard will also build the two Norton class tugs.

Iran Firm in Plan To Take Over Oil

TEHRAN, June 5 (Tuesday) (Reuters) — Iranian press reports said today the government's three-man oil board will leave Wednesday for Abadan to take over the Anglo-Iranian Oil Company's installations.

This was decided today at a join meeting of the mixed oil nationalization committee and the oil board, presided over by Premier Mohammed Mussadegh, the reports said.

The final draft of Iran's reply to Britain's latest oil note was also approved at the meeting.

Diplomatic sources here said the premier was impatiently awaiting the arrival of the Anglo-Iranian Oil Company's delegation to help "carry out nationalization of Iran's oil industry."

Usually well-informed sources said there were indications that the premier was prepared to receive a British government delegation but only to discuss terms of a new contract under which Britain would buy Iranian oil.

Government circles stressed there was no weakening of Iran's attitude to the oil question. Any rumors to this effect were false, they said.

Earlier today, the Iranian Senate approved the extension of martial law for two more months in the southern oil province of Khuzistan. The lower house voted for the same extension last week.

Cruiser Rushes Arrival To Get Man to Hospital

The cruiser Ontario reached Esquimalt yesterday afternoon three days earlier than originally planned, because of a 17½-year-old British merchant seaman.

Late Thursday morning, seaman Gordon Lee, of Kent, England, was painting the stack of the British tanker Mv. Atholchief. The tanker, bound from San Francisco for Singapore, was about 1,400 miles southwest of here in the open Pacific.

Something went wrong with the bosun's chair in which Lee was perched, and he fell 25 feet to the deck, striking several oil pipes on the way down.

An emergency call for assistance was radioed, and picked up by the Ontario, homeward-bound from a spring training cruise to Australia and New Zealand.

The badly injured man was transported to the cruiser aboard a motor cutter from the Canadian ship.

That was Friday night. Then started the fast dash home.

EVERY CARE

In Ontario's sick bay, the British seaman was given every possible care. An X-ray showed 17 fractures of his spinal column and ribs. He never lost consciousness, despite almost unbearable pain.

Fluids were his only food.

Care of the injured man was directed by Ontario's senior medical officer, Surgeon-Cmdr. Henry Ruttan, 1238 St. Patrick.

Within seconds after the warship tied up yesterday afternoon, stricken merchant seaman was whisked face down on a stretcher to a waiting naval ambulance and taken to St. Joseph's Hospital. Early this morning he was reported "doing nicely."

House Rejects Move to Halt Tax Measures

OTTAWA, June 4 (CP) — The Commons tonight voted 73 to 40 against a Progressive Conservative attempt to block approval of some of the tax changes announced in the 1951-52 budget.

The move was made when the government called for second reading approval in principle of a bill providing for various changes in the Excise Tax Act.

J. M. Macdonnell (P.C., Toronto-Greenwood), chief financial critic for the opposition, moved that the bill be given the second reading "six months hence."

Mr. Macdonnell explained that his chief opposition was to a section authorizing an increase in the sales tax to 10 per cent from 8 per cent.

The Progressive Conservative, C.C.F. and Social Credit members voted for the motion along with J. L. Gibson (Ind., Comox-Alberni).

In moving the motion, Mr. Macdonnell said Finance Minister Abbott had forecast a surplus of $30,000,000 for 1951-52. In the first month of this fiscal year the surplus totaled $121,000,000. If a mistake was made in budget estimates the government should say so.

Nine Counter-Attacks by Enemy Beaten Back on Twisted Allied Line

TOKYO, June 5 (Tuesday) (AP) — Allied troops beat off nine Communist counter-attacks Monday and moved their twisting battle line one mile deeper into Red Korea.

A U.S. Eighth Army staff officer said the Chinese and Korean Reds were fighting hardest in defense of Chorwon and Kumhwa — anchor of an assembly triangle.

One Red counter-attack was repulsed ten miles south of Chorwon.

"On the western and central fronts, the enemy is fighting a defensive campaign along the main routes to Chorwon and Kumwha while they are fighting delaying actions in the east around Inje," the staff officer said.

Only 300 Reds were captured in Monday's actions, A.P. correspondent Nate Polowetzky at Eighth Army headquarters said this small number, contrasted with large numbers of Chinese who surrendered last week, indicated the ferocity of the foe's delaying actions.

A pooled dispatch from the east-central front said two Red planes, believed to be jets, dropped five bombs on Allied positions north of Yanggu. Results were not disclosed. Yanggu is at the east end of Hwachon reservoir.

If the planes were jets, that would mark the deepest penetration southward of Red jets. The deepest previously reported was over the North Korean capital of Pyongyang.

East of Yanggu, a battle broke out last night near Inje and still was raging at midnight.

The Communists' defensive fight below the Chorwon-Kumhwa-Pyonggang triangle was so bitter that in some places Allied units had to give ground.

Massed artillery, the most effective U.N. ground weapon, roared but at some points proved ineffective. Chinese entrenched in five-year-old bunkers and concealed by foliage had to be dug out by flame-thrower, hand grenade and rifle.

The Communists struck back so fiercely on the central front, northwest of Hwachon, that front-line officers said they believed segments of the main Red Chinese line had been hit.

Hospital Plan Under Attack

VANCOUVER, June 4 (CP) — "British Columbia's hospital insurance scheme has degenerated appallingly and may become even yet a public disaster," Lyle Wicks, president of the British Columbia Social Credit Party, said in a radio address tonight.

He blamed a "debt-creating" economic system in British Columbia and said the hospital insurance scheme "may just be a 'red herring', hiding the true state of affairs."

Camera Damaged In Brawl

Colonist photographer Jim Ryan lost his camera during the Yates Street brawl last night.

Camera held high, Ryan was wading through the sea of soldiers and young civilians in search of pictures.

An army provost corporal grabbed Ryan's camera, tearing his coat and knocking off his hat.

The photographer took after the soldier through the milling mass.

The soldier dropped the camera as Ryan caught him, then kicked it.

The crowd surged forward, forgetting all about its own grievances.

A navy friend of Ryan's, C.P.O. Norman Keziere from H.M.C.S. Naden rescued the camera.

"I've covered these things before in other cities, but I've never seen anything like this," Ryan, a former navy photographer, said as he surveyed his damaged camera.

Catarrhal Inflammation

King To Rest for Month; Public Appearances Off

LONDON, June 4 (CP) — The king, suffering from a lung inflammation, has canceled all public engagements for at least four weeks to take a complete rest.

The 55-year-old monarch has been ill since May 25, when his doctors said he had influenza. They pronounced him recovered from this last week, but a catarrhal inflammation persisted.

His physicians earlier today said he would be unable to welcome King Haakon of Norway on his arrival tomorrow.

DEPUTIES

Princess Elizabeth, heiress to the throne, will read the king's speech at an official dinner for Haakon tomorrow, and the king's brother, the Duke of Gloucester, will meet the Norwegian monarch.

He first complained of influenza May 24 after a heavy day of public engagements.

He has been able to carry out his daily work of dealing with state papers. He was well enough last week to receive official visitors and hold a privy council.

Reds' Big "If" To Block Talks

PARIS, June 4 (AP) — Russia agreed today to hold a foreign ministers' meeting in Washington but added an "if" so big that Western diplomats said it amounted to a rejection.

A Soviet note said Foreign Minister Andrei Vishinsky would go to Washington "without delay" for a meeting on the condition that the ministers discuss the North Atlantic pact and U.S. bases in Europe.

Western delegates promptly told Gromyko they would forward his note to their governments but that it "amounts to a refusal of the Soviet government" to attend the foreign ministers' conference.

Korea Peace Conditional Red Spokesman Warns

FLUSHING MEADOW, N.Y., June 4 (INS) — Poland's Julius Katz-Suchy, Cominform spokesman in the United Nations, tonight ruled out a cease-fire in Korea unless it is accompanied by a settlement of outstanding Far East issues.

In an apparent reply to U.N. secretary-general Trygve Lie's demand last Friday for an end to the Korean war along the 38th Parallel on U.N. terms, Katz-Suchy indicated that Communist aggression will continue until the U.N. agrees to control of Formosa by Red China and its admission to U.N.

The Polish delegate said he knows of no behind-the-scenes efforts to end the Korean conflict.

FURTHER AGGRESSION

Katz-Suchy charged that an unconditional cease-fire would only give the Allies time for what he called "further aggression." He said a cease-fire would have to be "the result of negotiation and preparation for future negotiations."

He also said that Russia and the West can "co-exist peacefully" provided "there is strict adherence to the principle of non-interference in the internal affairs of other states."

Objections Succeed In Delaying Scheme

NO parking lot concession will be awarded for the Patricia Bay airport until "all local objections" have been studied, according to Transport Minister Lionel Chevrier.

A number of organizations have objected to the parking-lot proposal, including the Victoria Chamber of Commerce and organizations in Sidney and North Saanich.

Fisheries Minister R. W. Mayhew has received letters of objection from some groups, and sent them on to the transport minister.

BULLETIN

Answers Call

HALIFAX, June 4 (CP). —R.C.A.F. officials here reported tonight that the liner Queen Elizabeth has altered her course in mid-Atlantic to go to the aid of the Swedish freighter Hallingdal.

One of the freighter's engine-room crew was reported seriously injured after a boiler room explosion. The freighter asked for medical aid.

Police Plan Strategy

Not Confining Soldiers Asserts O.C. of Camps

Soldiers from Work Point Barracks and Gordon Head Army Camp will not be confined to barracks tonight despite near-riots on Yates Street last night, Lieut.-Col. A. C. Perron, commanding officer, said last night.

"We will exercise firm control over the men," he said. "I am going to have a meeting with them today and they can tell me what it's all about."

STILL HAVE RIGHTS

The commanding officer said he stood behind his men and that they "still have the rights of Canadians."

"We won't take any chances," he said, "but they won't be confined to barracks."

Police Chief John Blackstock said early this morning that he will call a meeting today with army and navy personnel to discuss steps to cope with any further outbreaks of violence.

When told that Victoria youths were expecting "reinforcements" from Vancouver today he said:

"We are waiting for them. Let them come."

Police and military patrols have been watching the C.P.R. docks here, it was reported earlier.

The police chief had no comment to make on last night's disturbance.

Musician Dies

SERGE KOUSSEVITZKY

Died last night at the New England Medical Centre, Boston, after a short illness. The 77-year-old former conductor of the Boston Symphony Orchestra was considered one of the world's four finest conductors.

Good Driver Always Ready For Emergency

"You are never alone on the highway," R. W. Hibberson, president of the Victoria Automobile Club, warned motorists yesterday as part of the club's "Protective Driving" campaign.

"The first-class driver is always alert to the possibility that a child may dart out or that a thoughtless driver of another car may cross an intersection without looking to see if the way is clear," he said.

"Protective driving means looking out for yourself, the drivers of other cars and for pedestrians who have as much right to live as you do," Mr. Hibberson said.

THREE RULES

Mr. Hibberson laid down three rules for becoming a first-class driver. They are:

1. Know your car and keep it in good condition. Take care of brakes, electrical equipment, safety devices and learn how your car will behave under all circumstances.
2. Observe all rules of the road.
3. Master the ability to anticipate trouble and be ready for it.

"The Victoria Automobile Club asks you to co-operate in its continuing campaign to reduce traffic fatalities," Mr. Hibberson said. "You can help yourself and all others on the road by becoming a first-class driver."

Navigator Wins Wings

Flight Cadet Richard D. Kilshaw, son of Mr. and Mrs. Gladwell Kilshaw, 3143 Admirals Road, is shown receiving his wings from Sqdn. Ldr. F. N. Sheffield on graduation from R.C.A.F. Air Navigation School, Summerside, P.E.I., June 1. Cadet Kilshaw was educated at Mount View High School and enlisted in R.C.A.F. in April, 1950. He was commissioned as a pilot officer.

Brigade Reinforcements Pass Through Vancouver

VANCOUVER, June 4 (CP).—Nearly 300 Korea-bound soldiers arrived here tonight.

The troops were in the city just two hours before hopping another train for Seattle, from where they will embark for Korea. They left their training camp at Wainwright, Alta., Sunday.

The men are replacements for the 2nd Battalion of Princess Patricia's Canadian Light Infantry and the Royal Canadian Regiment.

Capt. Alan Harbord-Harbord of Victoria heads the replacement group.

Capt. Harbord-Harbord served for six years with Victoria's Canadian Scottish Regiment in the World War during which time he rose from private to captain.

He served overseas with that regiment and at the close of the war he joined the permanent force with the rank of captain.

"We want to get into this fight as soon as possible," he said as the troops left their training grounds at Wainwright.

JOINED TO FIGHT

"We joined up to fight," he said, "a lot of my boys have been waiting quite a while for this chance to join their buddies in Korea."

The "boys" said they couldn't get into action too soon. Few could exactly say why they volunteered. Many said they wanted adventure. Few gave patriotic reasons.

Mrs. J. E. Griffith Dies at Age 75

Jane Ellis Griffith, 75, widow of the late Dr. J. Ellis Griffith, died here yesterday.

Mrs. Griffith is survived by two daughters, Mrs. Hubert A. Wallace of Victoria and Mrs. Ronald T. Jackson of Vancouver, and seven grandchildren.

There will be a private funeral at Hayward's B.C. Funeral Co., Vancouver, and interment will follow at Ocean View Park.

Hungry Business Asserts Petrillo

NEW YORK, June 4 (CP).—James C. Petrillo today advised parents to "stop your children from taking music lessons until there is a guarantee that they can make a living at music."

"Stop them from going into a starvation business," the president of the American Federation of Musicians (A.F.L.) told 1,100 delegates at the opening of the 54th annual A.F.M. convention.

Petrillo told reporters later that he referred only to children whose parents gave them training in music as a profession.

Mrs. Pendray Succumbs In Hospital

Mrs. Roy Pendray, 60, a member of Victoria's pioneer Okell family, died at Royal Jubilee Hospital early yesterday after a long illness.

Mrs. Pendray came to Victoria with her parents in 1891 at the age of six months from Lancashire. She lived in Victoria all her life except for a few years in the late 1920's when she and her husband moved to Calgary. She returned to Victoria after her husband's death.

FOUNDED FIRM

Mr. Pendray was the youngest son of W. J. Pendray, founder of Pendray Soap Works, which later became British-American Paint Company.

Mrs. Pendray is survived by four daughters, Mrs. J. F. Mercer of Victoria, Mrs. P. Linnartz, New York, Mrs. Charles Clark, Vancouver, and Mrs. J. W. Parker, Toronto, and seven grandchildren.

Five brothers survive: James W., Harold S., George, and Stanley H. Okell, all of Victoria, Rev. F. S. Okell of Niagara Falls, and a sister, Mrs. Charles Mitchell of Vancouver.

Funeral arrangements are not completed.

LONDON (CP).—Trying to avoid a head-on collision a motorist crashed into a house where a family was playing cards. After explanations had been made the motorist helped clear up the mess and then joined in the game.

Ford to Cut Production; Bans Blamed

CHICAGO, June 4 (INS).—The Ford Motor Company announced tonight that it will drop its night shift and return to a one-shift operation at its Chicago assembly plant and blamed the production cut-back on Government materials restrictions.

Plant manager S. L. Simmons said that approximately 900 of the 3,054 hourly-rated workers will be laid off June 29.

The plant has been operating on a two-shift basis since May 22, 1950. It built more passenger cars and trucks than any other Ford assembly plant in the country this year.

In a new directive, the automobile industry has been asked to cut third quarter production to 37 per cent of production in the same period last year.

Acheson Rejects Charge U.S. Undermined Chiang

WASHINGTON, June 4 (AP) — State Secretary Dean Acheson denied today the United States was guilty of "undermining and undercutting" Nationalist China in the Yalta Agreement which brought Russia into the war against Japan.

[illegible] shek government collapsed, he argued, was not the Yalta Agreement in January, 1945, but its own "inept political and military leadership."

Acheson told Senate committees investigating the ouster of General Douglas MacArthur there never has been any taint of Communist influence in deciding U.S. policy toward China.

At Yalta, Russia agreed to fight Japan in return for certain concessions in Asia.

KEEP BUSY

Acheson said the agreement was made mainly as a guarantee that Russian troops would keep 2,000,000 deployed Japanese troops from returning to Japan, which General MacArthur planned to invade.

He said the Japanese on the Asia mainland surrendered to the Russians as a matter of military necessity. "even though in hindsight we wish that we had had other forces to whom the surrender might have been made."

Asked if he agreed with the [illegible] was not present for that surrender "the United States was therefore guilty of undermining and undercutting an ally?

Mr. Acheson replied: "I do not agree with that version."

LONDON (CP) — Chinese visitors to the Festival of Britain complained they could not read a copy of the Shakespearian play printed in Chinese. It was upside down in the showcase.

LONDON (CP) — Residents in London's Herne Hill district were awakened early for church one Sunday morning when planes dropped incendiary bombs on a vacant area, as part of a civil defense exercise.

Price War Spreads To New U.S. Cities

NEW YORK, June 4 (AP) — Bargain hunters renewed their assault on New York City's department stores today as a spreading price war gathered momentum. Other cities got into the act.

Sales in New York stores for the week ended June 2 were up 25 per cent over the same week a year ago, a Federal Reserve Bank survey showed.

By contrast, Philadelphia department stores showed a marked drop. Some merchants believed shoppers were holding back, waiting for a price war to break out in that city.

New price wars flared in Baltimore, Md.; Newark, N.J.; San Francisco, Cal., and Omaha, Neb.

New items appeared on bargain counters in New York, some as replacements for cut-rate merchandise which had been sold out in last week's scramble. Prices of some items fell progressively during the day.

Two New York shoppers were severely cut when a crowd fighting to get into a Bronx store pushed them through a plate-glass window.

NEW BRAND

Macy's, which last week sold out its $46.50 Sunbeam Mixmasters at $29.64, switched to another nationally-advertised brand. A favorite among bargain-seekers in the big Herald Square store today was the Dormeyer mixer, price fixed at $46.50 and reduced to $28.67.

Shoppers with headaches bought aspirin at the cut-rate price of 17 cents for 100 tablets in some New York stores. The former price was 59 cents.

For the women, Macy's offered nylon slips at $4.09, reduced from $4.64. When the store ran out of toastmasters, it offered Westinghouse automatic toasters at $13.11, reduced from $22.95.

In Baltimore, Gutman's started a price war by announcing price reductions in fair-traded merchandise ranging from toasters to union suits. Two drug stores began feuding in Omaha, Neb.

Conviction Of Top Reds Upheld

WASHINGTON, June 4 (AP) —The Supreme Court today upheld the conspiracy convictions of the United States Communist party's 11 top leaders, holding that they "intended to overthrow the government of the United States as speedily as the circumstances would permit."

With Justices William Douglas and Hugo Black dissenting from the decision and calling it a blow against freedom of speech, the court by the same 6-2 vote held the 1940 Smith Act constitutional — thus opening the way for prosecution of thousands of rank-and-file Communists.

Attorney-General J. Howard McGrath indicated that plans for such a Red roundup may already be in the works.

PRISON TERMS

For the 11 leaders, today's decision almost certainly meant prison terms beginning in about 30 days.

The Red leaders involved are Eugene Dennis, general secretary of the U.S. Communist party, and these other members of the so-called American Politburo: Benjamin J. Davis Jr., Gilbert Green, Robert G. Thompson, John Gates, John B. Williamson, Carl Winter, Gus Hall, Jacob Stachel, Henry Winston and Irving Potash.

REGISTRATION

While today's decision lops off the leadership of the Communist party, the government is proceeding in another action to force registration of the party as a foreign-dominated agency.

Military Picture Good But Politics Obscure

INTERPRETING THE NEWS

By J. M. ROBERTS, Jr.
A.P. News Analyst

Gen. James Van Fleet's announcement last week that the "pursuit phase" of Allied operations in Korea was over, which was taken at first as a possible indication of a specific attempt to [illegible] ing peace overtures, now seems to have been merely a report that the enemy had quit running.

The Allies continue northward, but only in hard fighting.

Meanwhile, there is growing expectation that the Allies will soon let Peiping know how, from the United Nations standpoint, the war can be stopped if the Communists wish it.

Trygve Lie's Ottawa statement that a cease-fire providing for peace and security would be sufficient was taken as a forerunner of what might be expected.

REPELLED

The first objective of the United Nations was to repel agression in Korea. The aggressors now are back beyond the line from which they started. A corollary objective [illegible] to re-establish peace by force after the Communists had refused the United Nations plea that they do so voluntarily. That is today's question as the 13 Allies confer in Washington.

A secondary object of the United Nations campaign was to end the division of Korea which had existed since the war, and which was responsible for the trouble. Until the entry of Red China into the fighting, this was a military possibility. Now, unless the Allies decide on the use of far greater force than seems politically feasible in view of the global situation, unification becomes a strictly political problem, and one not likely to be solved any time soon.

There is no sign from China or Russia that they are interested in ending the present situation.

The military situation which was expected to open the possibility of peace negotiations has been created. The political situation seems unimproved, and possibly even favors continued fighting from the Communist standpoint.

Soap Makers To Face Probe

NEWARK, N.J., June 4 (INS). —The anti-trust division of the department of justice has ordered a federal grand jury investigation of three of the biggest soap manufacturers in the country: Colgate-Palmolive-Peet Company of Jersey City, Procter & Gamble, of Cincinnati, and Lever Brothers Company, of New York City.

This became known late today with the filing of motions to quash subpoenas on the three companies to produce all their records of the past 27 years.

The companies contended it would require many freight cars to deliver the records wanted by the government.

Want Protection

Farm M.P.'s Declare Tariffs Too Light on Margarine Oils

OTTAWA, June 4 (CP)—Three representatives from farming communities in Western Canada today protested the low tariffs on oils imported for use in the manufacture of margarine.

George Cruickshank (L.—Fraser Valley), E. D. Fulton (P.C.—Kamloops) and John Blackmore (S.C.—Lethbridge) said the dairy industry should be given some protection against competition from margarine producers.

They spoke in the Commons during passage of a bill implementing customs tariff changes announced in the 1951-52 budget. The changes provide for tariff cuts on such things as plastics, some farm implements, parts for mining machinery and some fishing gear.

James Sinclair (L.—Coast Capilano), parliamentary assistant to finance minister D. C. Abbott, said margarine producers paid an average tariff of 13 per cent last year on imported refined oils.

Will Issue 900 Kilts To Highland Battalion

OTTAWA, June 4 (CP) — Hoot mon, there'll be kilts in bonnie stunning variety when the 27th Brigade's 1st Canadian Highland Battalion gets going.

The army said today that every man in the unit—about 900—will be outfitted with a [illegible] d the trimmings. There'll be five different kilts and plaids, because five regiments are represented in the battalion.

An army spokesman said he thinks everything now is set to get the kilts produced in the United Kingdom. For a time it looked as though the cloth would not be available because it was being gobbled up by Americans for dinner jackets.

The kilt will be worn only for parades and walking-out.

FIVE COMPANIES

The five companies represent Montreal's Black Watch (Royal Highland Regiment) of Canada; the North Nova Scotia Highlanders, Amherst, N.S.; the 48th Highlanders of Canada, Toronto; Seaforth Highlanders of Canada, Vancouver, and the Canadian Scottish Regiment (Princess Mary's) of Victoria.

Each man will be issued with a kilt, colors of parent units, leather pouch or sporran according to unit custom, hose tops and colored garter flashes. Highland style doublet of tropical cloth for summer wear and distinctive headdress.

The tartans of the parent units are: Black Watch, 42nd Regiment Black Watch (pipers Royal Stuart); North Nova Scotia Highlanders, Murray of Atholl; 48th Highlanders, Davidson; Seaforth Highlanders, Mackenzie; Canadian Scottish, hunting Stuart.

Oddities

MONTREAL, June 4 (CP). — Some of Canada's top scientists, engineers and philosophers did some unexpected head-scratching and blushing today. A lowly magic lantern had them stumped.

They were attending sessions of the Royal Society of Canada here when their magic lantern went on the blink. The august company tinkered and fussed and looked for another lantern.

But one brighter delegate found the trouble. The lantern wasn't plugged in.

HARTFORD, Conn., June 4 (CP) — A Hartford policeman, checking doors on his beat, found one open and walked in to investigate. Getting in was easy, but when he turned to leave he found the door had slammed and locked behind him.

An hour later the store owner arrived and released the embarrassed patrolman.

POULTNEY, Vt., June 4 (AP). — Journalism students at Green Mountain Junior College today tasted some of the anguish that can go with newspaper work.

They had planned a super commencement publication: 30 tabloid-sized columns of type.

Last night the student editors turned over the copy to the printer.

A typesetter took the copy to his home. This morning a relative picked up the bundle of paper and, to fight off a morning chill, started a fire with it.

Work for B.C. Shipyards Is Assured

CANADIAN naval contracts, benefiting Victoria and Vancouver shipyards in common with other plants in the Maritimes and Quebec, will be welcomed in British Columbia, which in two wars maintained an excellent reputation for the turning out of first class ships. The announcement made by Defense Minister Claxton at Quebec, and repeated by his parliamentary assistant yesterday in the Commons, means that two Victoria yards are now assured a definite part in the country's new defense construction. Both Yarrows Ltd. and the V.M.D. Co. Ltd. will lay down destroyer escort keels under the new contracts, thus assuring a steady volume of work here for the balance of the year.

Mr. Claxton's announcement involved some $60,000,000 worth of new naval construction, in addition to contracts for approximately $96,000,000 awarded already. British Columbia did not fare too well in the first part of that program, and this assurance that no important Pacific Coast shipyard need remain idle while the rest of the country's ship construction works are operating under defense orders is not only timely, but also somewhat overdue.

The cost that Canada will pay for its new naval tonnage is probably the highest that will ever have been awarded in a Canadian government ledger, but that much was inherent in the times and inflation. The sober fact is that Canada must have the ships, and should never have allowed its former commissioned tonnage to relapse into the state it did in the last few years. Concurrently with the new ships, even in the smaller units that are now being ordered, will go a continuing need for more trained men to man them. On both counts British Columbia has a worthwhile contribution to make, as it has always done in the past.

The Case for a Bridge Is Still Good

ALWAYS when a project seems to be set for action there are those to be found who would hold back progress. The Point Ellice bridge is a nice case in point. The city fathers having reached the stage of blueprints for a new structure some voices are now raised to put a crimp in the replacement of one that is admittedly and obviously out-worn.

It is said that times are not normal, nor indeed are they. But does the current "twilight war" mean that all peaceful effort must cease, that cities should sit idly by while their public utilities run down? The present state of international affairs might easily go on for another ten years, and each succeeding twelvemonth would see the Point Ellice bridge fall into still worse disrepair. As it is no bridge can be deemed to fulfil its purpose when it cannot bear either the needed weight or speed of modern traffic. Will it take another disaster here to make clear that safety calls for a wide margin of insurance and not a narrow makeshift?

As for the steel required, all that will be used in the building of a new bridge would scarcely put a dent in Canada's defense stockpile. In any case a new Point Ellice structure would strengthen the local defense picture. Victoria was recently put in the category of a vital and potential enemy target area, as illustrated by the priority assigned to it for civil defense equipment, and one glance at the map should demonstrate the wisdom of having two sturdy traffic outlets from the Esquimalt military area direct to the city. The bridge also carries our main water supply flowline.

The aldermanic board should go ahead as planned, without allowing doubters to divert them from a serious and much-needed undertaking.

Monday Observance of Statutory Holidays

EACH year the pressure increases throughout Canada for observance of all national holidays on Mondays, and the number of influential organizations favoring such a change in the holiday schedule is growing. It includes, for example, the Canadian Chamber of Commerce and the Canadian Manufacturers' Association on the management side; and there seems little room for doubt that if employees were polled their support would be overwhelming, because of the strong attraction of long holiday weekends.

The advantages to be derived from Monday observance of statutory holidays are obvious. Midweek interruptions of factory, shop and office routines would be obviated, along with confusion as to the day of the week on which a coming holiday would be marked. Employers believe also that absenteeism would be reduced substantially as compared with the present system, under which there may be only one work day between a week-end and a public holiday. The Chamber of Commerce apparently believes that these advantages would outweigh possible loss of tourist business at long week-ends.

Opponents of the Monday plan number many who feel that national anniversaries would lose much of their significance if they were not observed on the correct dates. In the annual celebration of the King's Birthday there is precedent for moving the date of observance. King George VI's birthday falls in December, but at His Majesty's own request it is always observed officially in June, a circumstance which in no way detracts from the meaning of the occasion. On the other hand Queen Victoria's birthday is an anniversary of special significance to Victoria—more perhaps than to any other city in Canada—and anything tending to make it just another day off work might arouse opposition here. For the Dominion, July 1 is a parallel case.

On the whole it seems reasonable to believe that the business of the country and the pleasure of the people would benefit from the change that is proposed; but these factors are not everything. It is always open to question that convenience should have precedence over the preservation of historic associations.

HOSPITAL INSURANCE

Sir,—Why is it that the so-called impractical, visionary, unbusinesslike C.C.F. can provide the citizens of Saskatchewan with a hospital service equal to, if not better than, our B.C. service, and for much less money?

As an example, a family of three pays $25 per year there and no co-insurance. Here the same family must pay $42 per year plus co-insurance which likely will be the full $35. Therefore, to use the hospital service here costs this family $77 per year. Some difference for approximately the same coverage.

It seems such astute business men as Boss Johnson or Mr. Anscomb could at least equal the record of the party they claim would be so disastrous for B.C.

By the way, both provinces had deficits so that cannot explain the difference in costs. More likely it is in the political set-up.

This Coalition is neither Liberal nor Conservative, and we are suffering the consequences.

What a situation when two once proud and honored parties have to lean on each other, and then only march with feeble step.

Let each party have courage enough to stand on its own feet, and the voters will decide who is to govern.

H. C. TODD.

1402 Andrews Road, R.R. 4, Saanich, B.C.

HOSPITAL INSURANCE

Sir,—For a total of $79.50 your correspondent, Mr. Andrews, insured protection for his family for a whole year and has paid a seven-day hospital bill. Without hospital insurance this would have cost $101.15 for hospitalization.

In 1948, prior to the inception of B.C.H.I.S., hospitals all over the province were very close to a state of bankruptcy. This was due in large measure to depression, war years and the fact that almost 40 per cent of hospital bills were uncollectable. Some hospitals were on the verge of closing their doors. Lack of funds also curtailed the expansion necessary to meet the needs of British Columbia's enlarged population. . . .

A point often overlooked in this regard is that the responsibility for adequate hospital beds is that of the community. Generous financial assistance is given by the provincial and federal governments, but any project has to be initiated first by the community concerned.

In 1948 (before H.I.S.) the public ward rate in the Royal Jubilee was $6.50 a day for bed and meals only. This rate did not include operating-room, X-ray, bandages, special drugs and other services included in the present $11.95 rate.

It was found that the average person going in at that time with either X-ray or an operation of some sort, paid a total of from $10 to $11 a day. This in 1948 before prices began spiralling. If you will take into consideration the rise in cost of all hospital needs—linen, food, labor and drugs—you will find the extra dollar amply covered.

For someone going into hospital for two or three days only the advantages of insurance are dubious in actual dollar-for-dollar value. Remember, however, that they have insurance for the whole year just as in car or fire insurance where one does not feel the need of an emergency to be satisfied of the value.

The purpose of this scheme was to cut out crippling hospital bills for the individual and to put hospitals on a sound financial basis.

The Hills

Out of the complicated house come I
To walk beneath the sky.
Here mud and stones and turf, here everything
Is mutely comforting.
Now hung upon the twigs and thorns appear
A host of lovely raindrops cold and clear.
And on the bank
Or deep in brambly hedges dank
The small birds nip about and say:
"Brothers, the Spring is not so far away!"
The hills like mother-giantesses old
Lie in the cold,
And with a complete patience, let
The cows come cropping on their bosoms wet,
And even tolerate that such as I
Should wander by
With paltry leathern heel which cannot harm
Their bodies calm;
And, with a heart they cannot know, to bless
The enormous power of their peacefulness.

Thinking Aloud

". . . of shoes—and ships—and sealing wax—of cabbages and kings."

By TOM TAYLOR

HE was, of course, wearing a tartan tie. I say of course because I caught him flaunting the colors of the Gordons not so long ago and his only connection with Auld Scotia is that he occasionally speaks to expatriates like yours truly. This time he sported the Cameron tartan, or so it seemed. Not being a connoisseur of the Highland arts I couldn't be sure.

There is no law against a foreigner wearing the trademark of the clans—heavens no. At least if there is someone in Scotland must have had it suppressed in the interests of the export trade. I never saw so much tartan in all my born days as is visible in Victoria today, though I doubt that all of it came from Scotland. These are plaids on view no Highlander ever dreamed of, which is probably just as well.

As for bonnets with toories on them—nothing like it was ever before seen outside of Hollywood!

However, this piece is not about tartan, so sit back relieved. It was just that this fellow I'm speaking of has a yen for clan ties, and I couldn't refrain from introducing him thuswise. Actually he's an Ontarian of Kentish extraction, but by the looks of him he must have been reared near the Zorra boys.

* * *

I won't tell you his name for that would embarrass him, since it's well known that newspapermen don't like to see their names in print (?). But he's one of the big pashas of our newsroom. I say big advisedly; if he wasn't fed on porridge in his youth I'll eat the tartan tie I occasionally wear myself, which would be a pity for it really belongs to the R.C.A.F. and all my ex-airman colleagues know I'm a groundhog.

Six-feet-two if he's an inch, I'll bet. A fabulous fellow. Fabulous, incidentally, is a favorite word of his even if he doesn't know it; most people have a word that rolls often from their tongue unawares. When he was city editor he towered over his reporters with gargantuan gusto. Gusto—large, sweeping, infectious—is his characteristic.

Now he leaves reporters alone unless they become obstreperous, in which case he glares through his black-rimmed glasses like that R.S.M. you saw in "They Were Not Divided." Mostly he just sits, if I may so describe his poise, in a chair. So would you without a doubt if you carried about 230 pounds around—you'd want to conserve your energy, wouldn't you?

* * *

I don't mean by this that he can't move like a man half his weight, oh dear no. When he bursts daily into the newsroom of a late afternoon he's going full steam ahead, as though he were a dreadnought docking with her engines wide open. And once when he pulverized the Lilliputians of CJVI for all the world as though he were Babe Ruth himself, he ran around the bases as Leonide Massine might if he knew how. The bigger they are the harder the fall, but sometimes the lighter they flit.

That's our pasha. When I look at him I wish I had the gift of character drawing, or of caricature, or better still of both. He deserves to be etched in vivid prose, does this big hunk of nature, for all time. Especially right now. You see, he's about to become a benedict. When the news came out somebody joked about him having given way to impulse after taking five years to make up his mind, but he brushed such unsubtle irony aside with an expansive gesture. How else would a good-natured giant treat the pinayune remarks of lesser beings; he can afford to look down on us and smile.

Well—here's to him and the lady who will soon be Mrs. B—— (love, I nearly gave him a byline). Nevertheless I'll have to speak to him about that tartan tie. Maybe, of course, he really is a Zorra man in disguise!

Reporting From Ottawa

THE Liberals thought they had a sure-fire winner lined up for the Winnipeg South Centre by-election this month, a candidate who would hold Ralph Maybank's old seat in the Grit column against the most determined assault the C.C.F. could mount.

But when they asked him to run, he turned them down flat. The reason was simple: dollars and cents. He just couldn't afford to leave his lucrative drug store six months of the year for an M.P.'s salary of $6,000.

A crusader might have; a man who was willing to make personal sacrifices because of faith in himself, his ideas and ideals, and his ability to perform useful service for the country as a member of Parliament. There are such in the Commons.

However, more M.P.'s enter public life because of personal ambition. But no matter why they are M.P.'s, almost without exception they find they lose money at it.

* * *

Take the case of one M.P., a young lawyer from an Eastern province. At home he has an apartment costing $80 a month. This session he wanted his wife and family with him in Ottawa, so he rented a house at $110 a month, intending to sub-let his apartment. But his landlord wouldn't let him, so he is paying a total rent of $190 a month. His other expenses are heavy. He's expected to contribute to every financial appeal in his home town—at least $10 each time. His telephone bill runs about $30 a month, mainly because he cannot afford, politically speaking, to refuse to accept collect calls from his constituents. Another $20 a month goes for telegraph tolls. He has to entertain—lunches at $1 each in the parliamentary restaurant, plus liquid refreshments for which he pays the full Ontario government tariff. Occasionally he and his wife entertain in their home.

Political fence mending necessitates fairly frequent trips home during the session, and to Ottawa during the parliamentary recess. His law practice suffers during his absence, and even when he's home attending to it, any of his constituents expect to get his professional services for nothing, just because he's in politics. And, of course, he's always fair game for a touch.

Even more hard up is the M.P. whose $6,000 is his only income—like one I know, one of the ablest and most conscientious members of Parliament, who makes ends meet only with the greatest difficulty. He lives frugally in Ottawa, rooming and boarding in a private home, riding the street cars to Parliament Hill, eating his lunches in the low-cost cafeteria, rarely visiting his home in the West despite the fact that he has a railway pass, because he cannot afford railway berths and meals. He has to live this way, because most of his money goes home to support his wife and two school-age children.

He is one of those who never sees his $2,000 expense cheque. This amount goes to each private member at the end of the year, but long before then he has borrowed $2,000 from the bank, and assigned his cheque to the bank to cover the loan.

* * *

Multiply these cases by several score, and you have one reason why Prime Minister St. Laurent has decided to prorogue Parliament at the end of this month and open a new session in the fall. A new session this year will bring each M.P. an additional $1,000 sessional indemnity, making a gross of $10,000 for 1951.

What the members will net, after taxes and the expense of coming back to Ottawa in the fall, won't do much more than get them out of debt.

This Commonwealth

(From an address by Prime Minister St. Laurent)

THERE can be no formal bond to hold the Commonwealth together. Even the position of the Crown has changed, but not our respect for the Crown nor our devotion to the King. The Commonwealth has no formal constitution. Today it has become a free association of free nations which used to be linked together politically, and now are associated because of a common attachment to certain political ideals.

•

All of us in the Commonwealth stand for the maintenance of a large measure of freedom for the individual within the community, for genuine control by the citizens over their governments and, underlying both these concepts, for the view that nations, large or small, have a right to order their own affairs in their own way, so long as in doing so they do not menace the existence or the freedom of their neighbors.

There are still some people who feel that these ideals are so general that they can be and, in fact, are shared by most of the free nations which are not in the Commonwealth; and that therefore the Commonwealth as such has ceased to have any real meaning. With this conclusion I cannot agree, though I certainly agree with the premise.

To me the greatest attraction of the Commonwealth is that it is not exclusive in its ideals; that it is founded upon conceptions that could, with advantage to the world, be extended to all other nations.

The manager was startled. "How?"

"It's simple. Fill up the glasses."

The Packsack

OF GREGORY CLARK

MY grandma had the habit or mannerism of softly and tonelessly whistling as she went about her work. There was no actual whistle to it, just a faint sibilance. As she baked cookies or sewed or even as she walked about the house, you could always hear the soft and tuneless murmur of this whisper of a whistle. Sometimes you could catch the rhythm or cadence of a tune, such as "Bringing in the Sheaves," or "Darling Nellie Grey"; and we children used to get close to her, on the arm of her rocker, perhaps, and attempt to identify the tiny tuneless tunes with which she so absently entertained herself.

We children loved it. If we were ill, and Grandma was in the dim-lit room preparing a stocking full of heated salt for a sore throat for us, or watching over our restless slumber with a small dish of onion syrup, made of brown sugar melted on sliced onions, to give us for the croup or the whooping cough when the paroxysms waked us, it was a deep and penetrating pleasure to hear that eternal and lovely little murmur of Grandma's mannerism, there close beside us.

Grandma's daughters did not like this mannerism. They often spoke sharply to the old lady, asking her for heaven's sake to cease her whistling. And Grandma would desist for a little while, until she forgot, and went on with her little formless tune again. Often, her daughters did not have to speak: just a sharp jerk of their heads, and Grandma would close her lips firmly, with a contrite expression.

In the street car today, a man sitting beside me reading a newspaper, gave me a sudden, sideways jerk of a glance. I found myself closing my lips firmly, and feeling extremely contrite. And all the rest of the way home, I remembered Grandma with a sense of extraordinary reality.

Red Faces

THE continuing parade of Hollywood ex-Communists before the House Un-American Activities Committee is instructive. Many of the witnesses were attracted in more youthful days to the emotional periphery of the Communist movement. As they came up against the hard core of party dogma and party discipline they became disillusioned. Their faces are now far more red than their thinking.

Charity is in order for these penitents. Some of them are risking their reputations and livelihoods by coming forward to make a clean breast of their past mistakes and co-operate in uncovering further subversion. The New Testament is authority for rejoicing more over "one sinner that repenteth" than over ninety-nine just persons who "need no repentance."

Yet, strangely enough, there is a tendency to penalize the ex-Communist who has had the courage to break away from his former affiliations despite the knowledge that he was thereby opening himself to persecution by Communist and anti-Communist alike. One would think that society would hold out to the confused young radicals from the wavering edge of communism every inducement to prove their loyalty effectively when they have seen the light.

A distinction needs to be drawn between the muddled "idealists" who gravitated toward Communism because of some vague hope of a utopian new order and the tough power addicts, the disciplined fanatics, the trained and tried agents who form the permanent cadres of Communism. When the latter desert they seem sometimes almost as untrustworthy in their anti-Communism, as rigid in their thinking, seeing everything in terms of black and white, merely switching the devils and saints in their world of absolutes.

But the red-faced, faltering prodigal is another matter. He needs to be welcomed back when he tires of eating husks.

Looking Back

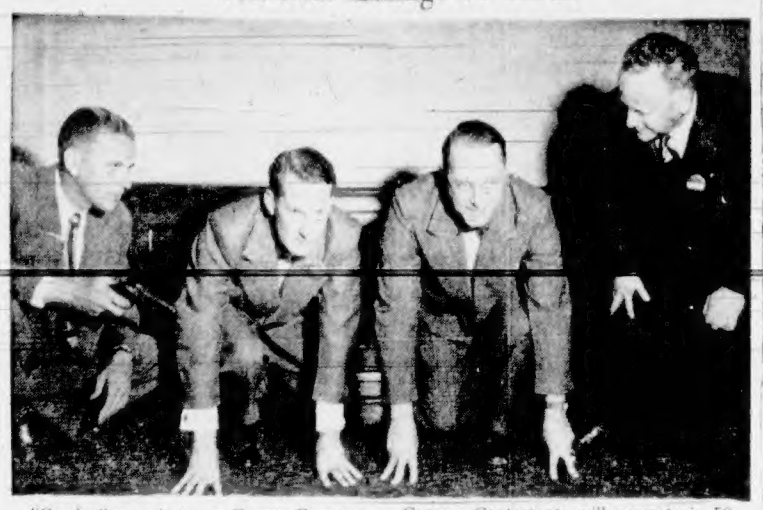

Through Colonist Files

25 YEARS AGO—The Federal Department of Indian Affairs is asking the Provincial Government to prohibit Indians from entering poolrooms to indulge in the pastime of shooting pool. To do this an amendment to the present law governing such premises would be necessary, and may be passed at the next session of the Legislature.

50 YEARS AGO—Mr. J. L. Leeson is enlarging his plant for canning clams. The clams are to be prepared for shipment to New York, and they will be bought as quickly as they are produced. They will be put up in four-gallon tins for shipment to their destination, where they will be put up in glass jars.

85 YEARS AGO—The officials, police and government appointees were all notified yesterday on applying for the monthly salaries that the Treasury Exchequer was empty. The banks, it appears, have refused credit to both colonies without proper guarantees. It looks as if the crisis has at length arrived.

Will Bear Grudge 50 Yards

"Grudge" race between George Gregory, president of Gyro Club, and Ald. Waldo Skillings, will be among highlights of Y.M.C.A. centennial international invitational track meet at Gyro cinder track, Victoria High School, June 19. Alderman's coach is Archie McKinnon, former Olympic coach, while service club president will be coached by Bruce Humber, last year's Canadian coach at Empire Games. Contestants will compete in 50-yard dash and 50-yard egg-and-spoon event—both contests to be run as one. Forthcoming novelty race between two Gyro Club members is butt of many laughs among other club members. Runners and coaches are pictured above. Sidney Males Sprouting Mustaches At Instigation of Rotarians' Wives

Noticed the male population in and around Sidney lately?

Practically everyone you meet is growing a mustache. Some are in the fuzz stage, others have reached the itchy stage and still others are beginning to take on handle-bar proportions.

It's not a protest against the high cost of shaving cream, but sponsored by the Rotarian Wives, the Rotary Anns, in conjunction with the coming Sidney Diamond Jubilee celebrations June 26 and 27.

Sidney men are entering into the spirit of the thing with great enthusiasm, although some say they'll be glad to shave the thing off.

People like Bryan Forster find the business of raising a soup-strainer a bit of a chore.

A barber by trade, Mr. Forster says June 26 is a long way off and that pretty soon he "won't be able to drink soup."

Grocer Stanley Watley admits he'll be glad to shave his off. For one thing, his wife objects to it.

The mustache contest is one of the many features scheduled for the June 26 celebrations, which will include a beauty contest open to girls from all over Vancouver Island.

Separate School Debate Flares Anew At Fraser Valley Ministers' Meeting

MISSION, B.C., June 4.—A wide-eyed debate on the British Columbia separate school question erupted here Sunday at a meeting sponsored by the Mission and District Ministerial Association.

The debate continued on the meeting hall steps for nearly an hour after the meeting closed.

Rev. Edward Morris, president of the Protestant League of Canada, talked for 1½ hours on what he termed the democratic need for adherence to the public school system.

Three young listeners at the meeting, who said they were members of the Roman Catholic Church, tried to interrupt Mr. Morris but were howled down.

There were no further interruptions but the three engaged about 40 other members of the audience in hot debate afterwards.

Mr. Morris said during his speech that Canada now has at least 100 different races and creeds. "If we were to agree to the establishment of separate schools for all, it would lead to strife in this country, not unity," he said.

Dog Crosses First Barrier To Utility Title

Ch. Oakcrest Pantoffel C.D.X., a Keeshond owned by Mrs. D. B. Hudson, 2615 Cranmore, passed the first round in the utility class at dog obedience trials Saturday.

Officials of the Greater Victoria Dog Obedience Training Club say this is the first time a western dog has passed the utility test, in which one fault disqualifies the dog. Passing the test three times is necessary before the title of "utility dog" is won.

Successful entrants in Friday's trials:

Novice "A" class—Ch. Eric of Mellowhill, Mrs. J. A. Burchett; Flash of Finnerty, Mr. and Mrs. E. Graham; Bhilwara-Ifted Betsy, Miss M. Trimmer; Oakcrest Kermode, Mrs. T. H. Butler.

Novice "B" class—Ch. Highland Castor, Miss E. Hornby; Shawn of Ginero Morra, Mrs. M. Coultas.

Saturday's trials:

Novice "A" class—Ch. Eric of Mellowhill; Flash of Finnerty; Ch. Lees Moonlight of Brow, Mrs. S. Parry.

Utility class—Ch. Oakcrest Pantoffel C.D.X.

Japan Sends Trade Group

VANCOUVER, June 4.—The first official representatives of the Japanese government to be stationed in Canada since the Second World War arrived in Vancouver Sunday night aboard a Canadian Pacific Air Lines flight.

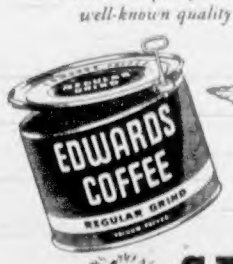

The three-man trade delegation headed by Katsu Ehiro Narita, will establish an office in Ottawa for at least two years.

Mr. Narita said the object of the agency is to promote and stimulate trade between Canada and Japan. Several similar agencies have been established in the United States.

Japan wants vital raw materials from Canada specifically wheat, iron, asbestos, lumber, wood pulp, cobalt and nickel. In return, Mr. Narita said, Japan will offer cotton and silk, mandarin oranges, tea, mechanical toys, and other manufactured products.

Culbertson on Bridge

(Copyright, 1951, by Ely Culbertson)

A bridge columnist is under this handicap: when he sets down a deal and shows all four hands, then reports that so-and-so, reputedly a pretty good player, made a certain play at a certain point, the reader is apt to curl his lip and exclaim, "A pretty good player! I call him a dub!"

Yet the fact is that these and other equally bad plays are made, hand after hand, by players who know what the game is about! Take the following case, for example:

South, dealer. Both sides vulnerable.

NORTH
♠ 8 5 2
♥ J
♦ A K Q 10 8 3
♣ 7 4 2

WEST
♠ K 9 3
♥ K 10 8 7 4 2
♦ 9
♣ Q 10 6

EAST
♠ Q 7 6 4
♥ Q 5 3
♦ J 6 2
♣ A 8 5

SOUTH
♠ A J 10
♥ A 9 6
♦ 7 5 4
♣ K J 9 3

The bidding:

South	West	North	East
1 ♣	1 ♥	2 ♦	Pass
2 N.T.	Pass	3 N.T.	Pass
Pass	Pass		

West opened the seven of hearts, South let East win the first trick with the heart queen, and again held up the ace on East's heart return. A third heart lead, however, knocked out South's stopper.

Declarer ran off dummy's six diamond tricks, discarding one club and two spades from his own hand, while East discarded two spades and a club. West gave up all three of his spades and two clubs, blanking his club queen. (He realized that if South had the club ace, even without the king, he would have nine sure tricks, since he was marked with the spade ace.)

Now, with seven tricks home and the spade ace still available, South needed only one club trick to make his game. He led a club from dummy and, when East unhesitatingly played low, South put in the jack! West spread his hand and claimed the rest of the tricks. Down two!

Considering that South must have known that West had two good hearts and would defeat the [illegible] with any card, it was rather silly for South to play the club jack instead of the king! The one hope was that East had the club ace—the position of the queen was not pertinent!

Rinfret Rejects Papers' Plea To Defer Act

OTTAWA, June 4 (CP). — A Canadian Daily Newspapers' Association delegation today urged Postmaster-General Rinfret to defer final adoption of a new postal act, increasing mailing charges for newspapers and periodicals.

Mr. Rinfret, who later said he could not agree to the request, said the delegation wanted deferment of third reading of the bill until it could present a memorandum containing suggestions for modification of terms.

The delegation met Mr. Rinfret after a meeting here this morning of 63 members of the C.D.N.A.

A warning against heedless logging of B.C. forests was voiced in **VANCOUVER** yesterday by Hon. E. T. Kenney, provincial minister of forests.

In a speech, Mr. Kenney said that only one-third of B.C.'s forest land—25,000,000 acres—carried suitable mature timber for logging, yet during 1950 this area was cut to the tune of 4,500,000,000 board feet of lumber —"an overcut of approximately 30 per cent."

"How far can we go in overcutting our great forests?" he asked. "When do de start committing economic suicide?"

Today's Quotation: "Those nervous persons who may be terrified by imaginary dangers are often courageous in the face of real danger."—Havelock Ellis.

Tuesday for Everyone: Allow yourself extra time en route and in fulfilling duties this morning for a tendency to delays, obstacles and consequent hasty or overly forceful action exists. Afternoon and evening favor sociability, progress.

Look for your Birthday and Birthsign below:

March 21 to April 19 (Aries)—Realign sentiments toward some members of family and neighbors. Find light on old perplexities.

April 20 to May 20 (Taurus). Be ready for gyrations in the financial picture. Strengthen cordial relationships.

May 21 to June 20 (Gemini). Go to the "head of the class" in afternoon. Be tactful with superiors, older persons in morning.

July 21 to July 22 (Cancer). Seek some quiet and peace in morning. Turn to uncompleted chores, catch up on relaxation, recreation in afternoon.

July 23 to Aug. 22 (Leo). Display interest in affairs of pals, your club or organization in afternoon. Be prudent if funds are involved in morning.

Aug. 23 to Sept. 22 (Virgo). Occupy yourself with the demands of industry, vocation, credit ventures. Let friends help in evening.

Sept. 23 to Oct. 22 (Libra). Draw up a far-reaching program for action in afternoon. Make plans amenable to interests of job, well-being in morning.

Oct. 23 to Nov. 21 (Scorpio). Capitalize on your monetary connections with others in afternoon. Bring budget into line; practise thrift in morning.

Nov. 22 to Dec. 21—(Sagittarius) Give allegiance and "the right of way" to teammates and others in morning. Line up support for yourself in afternoon.

Dec. 22 to Jan. 19—(Capricorn) Give first place to job and everyday routine; prove your worth to employer, fellow-workers.

Jan. 20 to Feb. 18—(Aquarius) Take no chances in morning. Welcome a trend toward wider latitude and enjoyment; renew friendships and contacts of long standing in afternoon.

Feb. 19 to March 20—(Pisces) Make timely adjustments centering around domicile or office in morning. Be objective, amiable in afternoon.

Planning Ahead — Good for sociability, entertaining, etc.: June 5, 6, 7, 8, 9, 11, 13, 14, 15; evening of 17, 23, 27, 30.

Coast Seamen's Wage Vote Count Expected to Be Finished This Week

A final count on votes by 800 coast seamen regarding a monthly wage increase of $13.87 and other concessions, is expected this week-end.

The men already have voted against the offer and in favor of strike action to support demands for a $30 monthly pay increase and a 25-cent boost for overtime hourly work.

The vote this week was to confirm rejection of the wage offer, Seafarers International Union (A.F.L.-F.L.C.) officials said.

Companies affected are the C.P.R., C.N.R. and Union Steamship Co.

PERMITS ISSUED

Building permits for three dwellings and seven alterations and additions, with a total value of $21,400, were issued in May by building inspector W. R. Cannon.

This figure is approximately $6,000 below that for the same period last year, and marks the third consecutive month this year that building permit values have been lower than for the same month last year.

Family "busy" room:
Here's charming proof that a living room can be homey without being dowdy . . . practical as well as pretty! It's done with books, fresh bright colors, close attention to family hobbies. But its big secret is that — from the floor up — it's completely free from work-worry. Look at that Gold Seal Congoleum rug! One wipe of a damp cloth and it's clean as a whistle. Yet its hooked-rug pattern has all the charm and color of a rug straight from Grandmother's house! And you should see how it stands up under household traffic. For that long-lasting wear-layer of heat-toughened paint and baked enamel is equal in thickness to 8 coats of best floor paint applied by hand. But remember — without this familiar Gold Seal it isn't Congoleum . . . the only enamel surface floor covering sold with the famous money-back guarantee. In fact, to make sure you get Gold Seal Congoleum Rugs . . . always look for the Gold Seal before you buy!

Wall Street Displays Weary Sag

By The Associated Press

The New York Stock Market in a quiet manner yesterday fell materially even though selling pressure was almost entirely lacking.

Just about every section of the list, with the exception of utilities, backed down markedly. At no time did the retreat get out of control.

Leaders showed losses going to between $1 and $2 a share at the outside average, and only a few extended onward. Gains, and they were few, amounted to a few cents in the list of leaders.

Prices fell at the start of trading in a continuation of the decline registered Friday. Bidding was not uncovered at those levels, and they sank still lower during the first hour.

HOVER

Prices hovered right around that low point for the rest of the session.

The Associated Press average of 60 stocks lost $1.10 at $91.30. This is the third time in three weeks that the average has lost as much or more. The industrial component of the average was down $1.40, rails $1.10, and utilities were off only 20 cents after trading unchanged most of the day.

The volume of trading came to only 1,100,000 shares.

Closing Averages

Dow Jones closing averages:

30	industrials	246.79, off 2.54
20	rails	78.11, off 1.25
15	utilities	42.32, up .01
65	stocks	89.86, off .93

New Type Silo May Improve Farming Methods

On farm owned by naval veteran Alvin C. Beggs, of Sunderland, Ont., 40 volunteer workers from Veterans' Land Act department, built new-type trench silo, which if proven successful following thorough, practical test on June 15 will become standard equipment for 10,000 veterans under V.L.A. And if whole idea catches on, rural landscape of Ontario will see big change, with gradual disappearance of the round tower-like silo, that features many farms today. "Digging bee" was result of decision by officials to try out this new-type trench silo.—(Central Press Canadian Photo.)

Shift to Defense Work May Upset Labor Needs

QUEBEC, June 4 (CP)—The shift from peacetime to part-war production may bring conflicting situations of labor scarcities and, at the same time, of unemployment.

The shift may mean that some plants won't be working at full capacity, even though the country will need all the production possible.

These pictures were given today by speakers of the opening sessions of the three-day annual meeting of the Canadian Manufacturers' Association.

Part of the background to the situation is that people are being urged to buy as little as possible and, if they follow this advice, production of ordinary consumer goods may fall.

Additionally, the raw materials needed for the making of goods are scarce, and production for defense gets first call on them.

TWO WAYS

W. F. Holding of Toronto, president of the association, who as president of General Steel Wares, Ltd., is himself a maker of consumer goods, put it as follows:

"The manufacturer has many people dependent for their livelihood on the operation of his manufacturing facilities. This being the case, he is bending every effort to encourage consumer buying. But in pursuing this course, he would seem to be working directly in opposition to government objectives."

Dr. J. R. Petrie of Toronto, director of research, Canadian Tax Foundation, expressed approval of the federal government's tax and credit-restriction policies, but commented that such policies can sometimes go too far.

ERRORS RISKY

"The great difficulty," he said, "in putting an economic theory to practical application is that we cannot tell accurately what whole operation of fiscal and the results of a given dosage of indirect controls will be. The monetary controls must be on a trial and error basis; and, when overdoses of the medicine become apparent, adjustments have to be made quickly before irreparable damage has been done."

Labor Minister Milton F. Gregg also touched on some of the worries of the manufacturers, noting that Canada was specializing in air power.

Aim at Board Quota

Daily Average Oil Output Cut From Recent Record

CALGARY, June 3 (CP)—Daily average crude oil production in Alberta for the week ended May 28 was down more than 10,000 barrels from the all-time high set the previous week.

Daily average production for the week amounted to 142,536 barrels against the record 152,985 barrels set during the week ended May 21.

The comparative figures were released today by the Alberta Petroleum and Natural Gas Conservation Board.

The decrease in production was caused by an end-of-the-month cutback so that total production for May would not exceed the 144,577 barrels allowed by the conservation board.

A total production of 156,129 barrels daily will be allowed in June.

Redwater, still the largest producer, accounted for most of the decrease with a daily average of 74,586 barrels against 89,117 barrels for the previous week.

Leduc showed a slight increase with an average of 42,546 barrels against 42,080 for the previous week.

OTHER FIELDS

Daily average crude production figures set during the week at other fields, with the previous week's figures in brackets, was: Acheson, 3,033 (2,258); Campbell, 182 (157); Duhamel, 400 (128); Excelsior, 3,045 (2,330); Golden Spike, 2,521 (1,836); Joseph Lake, 1,676 (1,572); Lloydminster, 3,347 (1,677); Stettler, 1,188 (1,488); Turner Valley, 8,202 (8,429); Whitemud, 85 (88); and the remaining fields and areas had a combined estimated daily average of 1,735 barrels for both weeks.

Last week saw another 21 wells completed in Alberta. This included 14 oil wells, two gas wells and five dry holes.

Well completions to date this year number 410—294 oil wells, 19 gas wells and 97 failures.

Two of the week's completions were rated as discovery oil wells. A southern extension of the Leduc field was made by Texaco-McColl's Wizard Lake wildcat, which made a three-zone oil strike and found natural gas in the Viking sand.

NEAR EDMONTON

Armisie Oil Co., of Edmonton, completed Armisie No. 1 as a lower cretaceous oil well about four miles west of Ellersile Production in the Leduc-Woodbend field and Redwater accounted for two more producers. Imperial Oil completed producers at Excelsior and Golden Spike.

The two wildcat gassers came in at Sylvan Glen and Oliver Lake in the North.

Mines Minister N. E. Tanner announced during the week that Alberta Government royalties on crude oil production would be changed with new rates retroactive to June 1. The changes are to come up for final approval at a cabinet meeting Tuesday.

Unofficial reports said that the new royalties will be 12½ per cent on production of about 50 barrels a day. They would be scaled down sharply from 50 barrels to reach about 5 per cent at 25 barrels per day and up from 50 to reach a maximum of 16 2/3 per cent on 125 to 150 barrels daily.

RUMOR DENIED

Late in the week it was rumored that the Alberta government would make an announcement on gas export within the next 30 days. But Mr. Tanner said no second "limited export" permit application had been received.

Other top government officials said plans were to continue conservation board hearings on gas export applications next September 4.

The only limited export authorized so far is to the Anaconda Copper Mining Co. in Montana for essential defense production. This permit was granted by a bill passed at the last session of the Provincial Legislature.

London Market Remains Firm

LONDON, June 4 (Reuters)—The tone was firm today despite a small turnover on the Stock Exchange.

Government nationalization stocks moved fractionally higher on modest support. There were minor gains in industrial groups, including textiles, engineerings and tobaccos.

Anglo-Iranian, with an advance of 3/16 at 5 7/16, was strong in a generally-better oil section.

Gains of one point were recorded by Japanese bonds, and European loans were quietly steady.

Increased dividends helped copper, but prices were finally off their peak.

Gold shares inclined lower with market revival of sterling revaluation talk.

May Reopen Dormant Mine

VANCOUVER, June 4 (CP)—British Columbia's only developed nickel mine, dormant for 14 years, may be reopened.

An exploration program is planned this summer by Pacific Nickel Mines Ltd., on its property at Texas Creek, 107 miles east of here.

If sufficient ore is found to boost reserves, a mill will be built, company officials said today.

Geologists have reported that the approximately 1,250,000 tons of ore already developed is not sufficient for a mill. Decision to resume mining will depend on results of the exploration work.

Frozen Wheat Tested as Feed

EDMONTON, June 4 (CP)—University of Alberta tests have shown that frozen grain could be marketed for as much as $4.70 a bushel when fed to steers, Dr. L. W. McElroy told 600 farmers at the university's animal science farm.

Dr. McElroy, professor of animal husbandry, outlined steer-feeding tests under which each animal consumed 1,225 pounds of grain and hay during 20 weeks on the feedlot.

The $4.70-a-bushel return was recorded for frozen wheat contaminated with weed seeds. Badly frozen oats were marketed through steers at $2.67 a bushel.

All grains yielded more than a threefold return when marketed through steers this spring, he said.

Those fed barley and oats showed a margin of $92.69 a head to cover labor and overhead. Steers fed frozen grain consumed 100 pounds more feed to clear $84.72.

U.S. Tightening Metal Control

NEW YORK, June 4 (AP)—A new government directive last week tightened defence controls on lead and zinc, and rolled back zinc scrap prices.

The price of nickel was boosted six cents a pound by International Nickel Company of Canada, bringing electrolytic to 56½ cents at the Port Colborne, Ont., refinery.

Tin was trimmed three cents a pound to $1.36 by the Reconstruction Finance Corp., sole importer for this country.

New regulations increasing the amount of lead and zinc which must be set aside for defence priority orders are effective July 1.

Companies Share Oil Strike; $10,000,000 Spent in 11 Years

By C. O. NICKLE
Special to The Colonist

The cost: in time, more than 11 years; in money, more than $10,000,000. The result: the first Alberta crude-oil discovery for the team of Texaco Exploration Company and McColl Frontenac Oil Company, and the newest addition to the growing oil reserves of Western Canada. The well: Texaco-Wizard Lake No. 2, lsd, 12, 22-48-27w4th, 28 miles southwest of Edmonton and five miles southwest of the Leduc oilfield.

This week the well completed experimental flow tests, and is now ready for steady production at a market quota to be set by the Conservation board. Producing from the top 11 feet of Devonian D3 reef—the deepest of three oil pay-zones discovered—the Wizard well has proved itself an important addition to the potential of Alberta.

OPEN FLOW TEST

In a brief one-hour open-flow test, Wizard Lake No. 2 ripped out more than 200 barrels of light crude oil of 36 degrees API gravity. Since then it has been restricted through various-sized chokes, with flow rate on one-half-inch choke around 500 barrels daily. Casing pressure has ranged up to 1,740 pounds per square inch, tubing pressure up to 1,100 pounds, separator pressure up to 90 pounds, on the restricted-flow tests. Gas-oil ratio is low, around 500 cubic feet per barrel.

Texaco-McColl have already started a rig on a quarter mile south offset, and plan to get a second rig going in the near future on a further evaluation test. Thickness of D3 pay is unknown, for the well halted for production 11 feet in. The reef, however, was found 395 feet lower than the oil-water line in D3 reef of Leduc field, clearly establishing Wizard as a new field. Before getting the D3, the well discovered a thick, oil-bearing Devonian D2 zone; indicated commercial oil production in a basal Cretaceous sand; and natural gas in the Viking sand. These zones, as well as D3, will be evaluated by follow-up drilling.

ENDS DROUGHT

For Texaco and McColl the Wizard discovery marks end of a drought that has lasted a decade. Exploration costing $10,000,000 or more had brought gas discoveries but, until Wizard, the team had failed to make an Alberta oil discovery. They have benefited from the discoveries of others, however, and now share 48 oil wells other than Wizard. Of these, 34 are at Redwater, on Crown Reserve lease purchases; eight are in the McLeod Pool of Leduc, on Crown Reserve leases, and six are in the Calmar sector of Leduc.

McColl Frontenac, Canadian affiliate of the Texas Company and No. 3 refiner and marketer of petroleum products in Canada, launched exploration in Alberta 11 years ago. Like many another company, it found the road to discovery a hard one. McColl failed to find oil, but did make a natural gas discovery in the Pakowki Lake region of southwest Alberta in 1946. Since then, jointly with Union Oil of California, McColl has developed a major gas reserve in this region. That reserve will soon start delivering gas to Alberta's first major export market, the defense-vital mineral industry of Montana.

A few years ago the Texas Company, through Texaco Exploration, took on the financial burden of exploring McColl's Alberta land holdings. It matched McColl's previous spending of over $3,000,000 on exploration for a half interest in the lands without making discovery, then agreed to continue paying 100 per cent of costs on the joint lands, carrying McColl for a free 10 per cent stake. McColl kept the right to buy into additional lands, up to 50 per cent and the Redwater and McLeod Pool oil wells are in this "working interest" category. McColl also kept its Pakowki gas interests, including land and 18 gas wells.

Today, Texaco and McColl, jointly or separately, have a stake in 2,572,570 acres of leases and reservations in Alberta. McColl's carried 10 per cent applies to the largest part of these lands. In northeast British [illegible] cent interest in a net 741,040 acres of exploration permit lands. In addition to Alberta exploratory drilling, a large scale geophysical search for new structures is under way. Eight seismographs and one gravity meter are in the field. Land costs, exploration and development costs will run at least $4,000,000 for 1951. The Wizard oil strike provides a new incentive to keep Texaco-McColl in the Western Canadian exploration field, and gives the team the first real assurance that its big-money gamble will prove a profitable one.

TOTAL 410 WELLS

There were another 21 wells completed in Alberta during the past seven days, boosting total completions so far this year to 410 wells. Fourteen of this week's new wells resulted in oil production, two were gas wells and the remaining five were dry. The score for this year now stands at 294 oil well completions, 19 gas wells and 97 dry holes.

Two of this week's new oil producers also were chalked up as discoveries of new oil pools. One, drilled by the team of Texaco-McColl, a wildcat in the Wizard Lake area, discovered oil in the Lower Cretaceous, D2 and D3 zones of Devonian and was placed on production from D3 horizon. The other was drilled by Armisie Oil Company, in the Ellerslie area, and discovered oil in the Lower Cretaceous.

Another half-dozen wells were placed on production in the Leduc-Woodbend area, including four owned by Imperial and one each by the Harvard Company and the team of Leduc Calmar-P.C.M. Syncate-Spokane Oils. Redwater accounted for three more completions, two oil wells and a failure. Imperial and the Renfrew-Share team each own one of the new producers while Mars Petroleums drilled the dry hole.

Royal Gun Salute, Dressed Warships Mark Observance of King's Birthday

Victoria joined the rest of Canada yesterday in observing His Majesty's 56th birthday.

It was a "half and half" holiday. Federal, provincial and civic government offices were closed, along with banks, schools and a number of other offices. But for many it was a working day.

At noon, guns at Work Point Barracks fired a Royal 21-Gun Salute. Most military personnel had the day off.

BUNTING FLIES

At Esquimalt naval base, warships were "dressed" as were passenger vessels of the C.P.R. Coastal Service.

There was no marked increase in tourist traffic to the city.

Only curtailment in mail delivery was felt in the business district where one delivery was made.

The King's birthday actually is December 14, but it is observed at this more convenient time of the year.

Screenplay by Mexican President's Son To Be Filmed South of Border

HEARD IN HOLLYWOOD

By LOUELLA O. PARSONS

HOLLYWOOD, June 3 (INS)—Young Miguel Aleman Jr., son of the President of Mexico, is not only a charming, well-bred boy, but a brilliant one. I met him at a cocktail party given in his honor at the Beverly Hills Hotel and he told me about the motion-picture story he has written which R.K.O. will make in Mexico in September.

Such stars as Ann Sheridan and Joseph Cotten, from Hollywood, and Dolores del Rio and Pedro Armendariz, of Mexico City, are slated for the Aleman story, as yet untitled.

Young Miguel, who has much of his father's charm, is making his picture in two versions—Spanish and English. Norman Foster, well acquainted with Mexico, has been chosen as director. Manuel Zeceña, here with the Aleman party, is in charge of production.

TEAM UP

Maureen O'Hara and John Payne have gone into business together with director "Doc" Merman and Will Price, Maureen's husband — motion-picture business, of course.

The new company will make seven Technicolor films in the next three years. In fact, Maureen told me before she took off for Ireland, she and John will make only Technicolor films. Their first is "Jamaica," which will be filmed in October in its native locale, and, of course, the stars are Maureen and John.

Doc Merman, who directed some of the Pine and Thomas successes, will continue in the same post on the Price-Merman productions.

DIXIE'S HOME

Like all travelers home from Europe, Dixie Crosby could hardly wait for her luggage to arrive to start distributing the gifts for Bing and the boys. No doubt about it, Dixie had the time of her life on her first trip abroad, touring 6,000 miles by car through France, Germany, Italy, Switzerland and Spain.

She bought Lindsay a toy soldier from every country to add to his growing collection. For Gary, Dennis and Philip she bought socks, sweaters, billfolds. For Bing—silk pajamas custom-made in Gay Paree.

Oddly enough, Mrs. Crosby didn't shop for herself in France. She waited until she got to Rome, where she bought lovely things at Fontanna's.

It's a very chic, happy Dixie these days—happiest of all to be home again with her "brood."

Frank Sinatra flew to New York to close his apartment. He will be here all summer, and if things go his way he and Ava Gardner will be married by fall.

I am reliably informed Frankie is asking Nancy to get her divorce in Nevada so he and Ava will be free to marry without waiting the year required by California law.

Nancy has put her home on the market and this will probably be a part of the settlement. It's valued at $200,000 and is a beautiful place.

Joan Crawford, scared to death of radio for years, is leaping headlong into TV. She has had her agent approach Yul Brynner, who will direct a TV show every other week. Before Brynner scored his smash hit with Gertie Lawrence in "The King and I," he directed some of the most important TV dramatic productions and he's a pioneer in the field.

Joan leaves early this week for New York for a conference with M.C.A.'s Sonny Werblin who will set all deals in TV for her, among them the Brynner show. Joan says an artist and is glad to have this chance to work with him.

That's all today. See you tomorrow.

By The Canadian Press

Cleveland Indians, with assists from a black cat and 15,000 rabbit's feet, finally broke through the Ed Lopat jinx Monday night to beat New York Yankees 8-2.

Lopat, who had won 30 out of 36 games against the Tribe and the last 11 in a row, was replaced by Tommy Byrne at the start of the third after allowing six runs and giving up seven hits. The defeat, his first against eight wins, was the first game since June 17, 1949, that he had lost to the Indians.

The rabbit's feet were given to the first 15,000 of the 20,217 fans who entered the stadium in Cleveland. The Tribe management ordered the good-luck charms from New York—of all places—after a fan suggested it in a newspaper "beat Lopat ideas" contest.

PRESENT

Another fan tried to break Lopat's hoodoo by running out to him with a black cat as the hurler tossed warmup pitches in the last of the first inning. The fan waved the cat before the surprised Lopat's face and then deposited it in his arms. Police led the fan away and an umpire took the cat.

Gerry Coleman, Yankee second-baseman, was taken from the game in the fourth inning after he received a deep gash on his right forearm and a minor cut on his right thumb when he tagged Garcia out on an attempted steal to second.

He was taken to hospital and is expected to be out of action several days.

The victory was the ninth in a row for the fourth-place Indians, but it didn't help them get any closer to the still red-hot Chicago White Sox.

The Sox moved 3½ games ahead in the American League race with a double victory over third-place Boston Red Sox.

Saul Rogovin hurled a 2-0 victory in the nightcap after Billy Pierce beat the Red Sox 6-5 for his fifth straight victory in the opener before a crowd of 42,718, biggest of the season at Chicago's Comiskey Park.

Dom DiMaggio hit safely in both games to extend his consecutive game hitting streak to 24.

At St. Louis, rookie Louis Limmer hit a grand slam homer for Philadelphia Athletics as they went on to down St. Louis Browns 7-6. Eddie Joost drove in the deciding run with a double in the seventh inning.

Detroit Tigers nipped Washington Senators 6-5 in the only American League day game. Johnny Groth broke up the tie game in the ninth inning with a two-out, bases-loaded single.

DROP 13TH

Only 2,235 paid fans, second-smallest Detroit crowd this year, saw the Tigers hand the Senators their 13th loss in the last 15 games.

In the National League, Stan Musial feasted on New York pitching again, hammering out two home runs and a single to spark the St. Louis Cardinals to a 7-2 victory over the Giants.

Cincinnati Reds staged a garrison finish, scoring seven runs in the ninth inning to defeat Boston Braves 10-7.

Max Surkont blew the Reds down with ease until the eighth, when Connie Ryan blasted a three-run homer.

Pittsburgh Pirates snapped their eight-game losing streak, trouncing the Philadelphia Phillies 12-4. Gus Bell hit for the cycle—a single, double, triple and homer—to pace the Pirates' 17-hit attack.

Marshall Set For Opener With Braves

Victoria Athletics may get a chance to pad their individual averages tonight and tomorrow night when Tri-City Braves play an abbreviated two-game series. Third game of the series, Scheduled Thursday has been postponed because of the appearance of the Fulham Football Club. It will be picked up as part of a doubleheader in the next series.

The Braves have been slipping since a good start because of the inability of their pitchers to cope with opposition hitters. Manager Charlie Peterson has had less than ten complete games from his staff, which has given up an average of seven runs per game.

However, Tri-City has a powerful attack and the Braves are capable of scoring a lot of runs. Latest official averages show the visitors with a team mark of .290, down a bit from the .317 it once was but still potent. The A's are almost 40 points below as a team.

Vic Buccola, a familiar figure indeed, is leading the Tri-City attack with an average close to .400. He has been getting plenty of help from second-baseman Al Spaeter, having a big season, Shortstop Bud Peterson, Catcher Nick Pesut and Outfielder Clint Cameron. However, Cameron is sidelined with a dislocated finger.

John Marshall will pitch for the A's tonight with John Tierney the tentative choice for tomorrow.

Steady Bill Osborn Wins Third Game As A's Cop Series

Tacoma	18	29	.477	14

Victoria Athletics didn't quite get out of the W.I.L. dungeon last night with their 7-3 series-clinching victory over Wenatchee Chiefs but they did manage to get some company. The win, plus Tri-City Braves' 11-4 thumping of Vancouver Capilanos, left Victoria and Tacoma tied for seventh place, moved the Braves into fifth ahead of the Chiefs with only one game separating the last five clubs.

Bill Osborn, making his second start and going the route for the second time, pitched steadily to register his third victory. He ran into trouble only in the fifth and sixth innings, when the Chiefs made six of their 10 hits and all of their runs.

FROM BEHIND

Meanwhile, the A's were having more trouble with Mike Kanshin than the box score indicates and only put it away in the eighth with a three-run decision after coming from behind in the sixth with two lucky runs.

It was the sixth-inning break that led to a dugout fight between Kanshin and Larry Neal, Wenatchee's negro shortstop. The score was tied, 2-2, two were out and runners were on third and second when Bill White lofted a high-fly behind into short left-centre. Centre-fielder Lil Arnerich just failed to reach it after a long run and the tying and winning runs scored.

It appeared as if Neal should have been able to make the catch but he didn't go after the ball. Coming as it did after a base-running blunder by Neal took the Chiefs out of what might have been a run-scoring inning in the third, it was enough to cause words between Kanshin and his team-mate. It eventually developed into physical action and manager Rupe Thompson, so ill he didn't suit up at the start of the game, hurriedly donned his playing togs to bat for Neal in the ninth.

DIAMOND DUST: The 3-1 series victory made it six out of eight for the A's over **Wenatchee** this season . . . **Osborne** has the only winning record among **Victoria** pitchers with a 3-1 mark . . . Opposing clubs are either stealing Victoria signals or guessing well. In the last nine home games, the A's have had ten of 12 would-be base stealers, six on pitchouts, thrown out at second gase. **Don Pries** has been the victim five times . . . **Jim Olsen**, with the A's last season, was signed by the **Capilanos** last week after being released by **Tri-City** . . . Manager **Dick Barrett** has been getting a pitcher ready at the slightest sign of trouble in recent games and, coincidence or not, has not been having to use his relievers so often . . . the Victoria clubhouse was broken into over the week-end. Teammates took advantage of the situation to hide Don Pries' equipment last night and claim it was pilfered . . . **Bill Brenner, Yakima** manager, must be blushing a bit today. He bought **Warren Noyes** from the A's on a conditional basis, wired Friday to say he wasn't keeping the righthander and asked for instructions as to his disposal. Sunday, Noyes threw a three-hit shutout at Salem . . . Trainer **George Wilkinson** handed in his resignation for the third time before game time last night after disagreement with some of the A's . . . **Dick Bartle** got a chance to play his first-base position last night when **Hal Jackson** rested after having a bothersome molar extracted and he handled himself capably . . . **Orrin Snyder** broke in with a single his first time up and may prove to be quite a help . . . **Lil Arnerich** continued his fine play in centre-field for **Wenatchee** last night, **Gene Thompson** losing an extra-base hit in the eighth . . . When **Bob Sturgeon** reports, the A's can move up fast if they get expected performance from some of the top mound help . . .

NEW YORK, June 4 (AP)—Prediction by Boston's Billy Southworth is that the National League race will remain as tight as it is now through most of the season. . . . And, being an optimist, like most baseball managers, Billy figures his Braves will be up in the scrap. . . . "We've had some well-pitched games, and we've lost some of them," Southworth explains. "We're last in hitting and we don't belong there. . . ."

VANCOUVER, June 4—The New Westminster Commandos rode into second place in the Inter-City Lacrosse League tonight on the shoulders of husky Alfie Wood who scored five goals and one assist, as Commandos shaded Vancouver Combines 12-11.

It was Wood's fifth goal which averted almost certain defeat for Commandos, when he flipped in Art Pruden's rebound with only ten seconds left to play.

TIED UP GAME

Twenty seconds before Wood's climactic effort, Combines had capped a wild fourth-quarter rush, tying the score 11-11 with Harry Buchanan beating Goalie Gordy Pogue after intercepting Wood's pass.

Wood's winning marker took Combines off guard, as the visitors suddenly emerged from their defensive shell in one last bid for victory. Commandos were two men short at the time.

INJURIES COSTLY

A flurry of injuries, five to New Westminster, slowed the game. Most seriously injured was Bert Houston, taken to Royal Columbian Hospital with a fractured cheek bone.

Also needing repairs were Mike Munro, Jake Trotzuk, Bob Anderson and Art Pruden of Commandos and Jim Kinna and Jim Anderson of Vancouver.

Commandos' hustling tactics gave them a 5-4 half-time lead, and they upped it to 9-5 at the 45-minute mark. Wood's six points easily topped scorers and moved him within three points of Combines' leading Anderson.

Next games, Saturday: Cowichan vs. Five C's at Duncan; Albion vs. Alcos, Beacon Hill Park.

Alcos scored their first win in the Victoria and District Cricket Association by edging Incogs, 45-35, at Macdonald Park Sunday afternoon. The defeat broke Incogs' win streak at three games and prevented them from moving into a first-place tie with Oak Bay.

In sharp contrast with Saturday's matches, the teams completed the first innings within an hour and 20 minutes. Incogs batted out 54 runs for six wickets in the second innings during the next 40 minutes, while Alcos succeeded in batting out their 40 minutes for only two wickets down to make the first-inning result count.

Gorge Valers Take Trophies At Golf Meet

Victoria golfers dominated the Mid-Island Women's Golf Tournament at Nanaimo on Sunday, with both major trophies going to Gorge Vale players.

Dorothy Herbertson won the low gross award with a 78, two strokes less than clubmate Shirley Fry. Mrs. E. Carroll of the same club turned in a net 65, two strokes less than Mrs. B. Thirwell of Colwood, to win low net honors.

Other prize winners were:

Low gross, first nine: Mrs. V. Painter, Cowichan; second nine, Mrs. H. McIntyre, Gorge Vale. Low net, first nine: Mrs. N. Good, Nanaimo, second nine: Mrs. F. Kerner, Gorge Vale. Putting: Mrs. J. Lumley, Comox, runner-up, Mrs. J. Norsworthy, Gorge Vale. Hole-in-one, Margaret Mahoney, Colwood, runner-up, Miss V. Kirkham, Gorge Vale, long drive, Mrs. B. Paterson, Gorge Vale, 201 yards; runner up, Mrs. R. Newman, Comox, 184 yards. Hidden hole, Mrs. M. Stevenson, Comox.

Three Families Provide Half of All-Star Line-Up

Three families are represented by one-half of the players named by the selection committee to the Victoria all-star soccer team which will meet Fulham at Royal Athletic Park on Thursday.

The Robbins family placed Joe, Sid and Jack on the select squad while the Travis' are represented by Joe and Ab, and the McGee's contributed twins Denny and Don. All are members of Victoria United.

Six of the other seven players named are also signed with United, which also hopes to secure the seventh—Ken Williams of Duncan Native Sons—for Dominion Cup play. Fullback Herman Henry of Duncan, who will captain the all-stars, and Stan Bob of Nanaimo, have already been signed by United for cup play. The other four players named to the select squad are Wallace Milligan, Bob Allen, John Pickburn and Cedric Robb.

Asked last night to name his starting line-up, manager Tommy Restell said he would be unable to supply the information until after tonight's final workout. He said he thought the selection committee had named the best players available from those turning out to practices but he did not know whether Jack Robbins or Robb would be available. Robbins is still away on his honeymoon and Robb is nursing an injured ankle.

Ticket sales are reported good and will continue at Royal Athletic Park daily from 9 a.m. to 5 p.m. until Thursday.

Next game, tonight: Ramblers vs. North Saanich, Lower Central, 6.45.

The junior Toppers rose out of the depths of the Women's Softball League last night to hand league-leading Victoria Individuals a 9-0 trimming at Lower Central. It ended the loop leaders' win skein at seven games.

The win moved Toppers out of the league cellar for the first time this season.

Irene Sande humbled the vaunted Individual bats with a three-hit pitching performance. Mary Bradford started for the Individuals but was relieved in the second inning by Ruth Oster. Toppers picked up seven hits off their offerings, including a two-run triple by Sheila English in the first inning.

Johnston First To Hit Century

Bill Johnston, 219 Beach Drive, became the first Vancouver Island marksman to reach the 100-straight mark on the skeet ranges Sunday at the Victoria Gun Club's Albert Head grounds.

The feat gave the 24-year-old marksman the Dr. A. D. Retchel Long-Run trophy, held previously by Ted Bailey.

Johnston was talked into trying for a fifth set of 25 birds but missed on his second target. The first-bird of the fifth set gave him a total run of 117, including a carry-over of 16 from a previous shoot.

Next game, tonight: Bluebird Cabs vs. Chinese Students, Upper Central, 6.30.

The Senior "A" Men's Softball League is currently locked in one of the hottest pennant battles seen here in some years.

For the past couple of weeks the rule has been that any team that wins a game moves into first place. This held true Sunday and yesterday as Butler's Aces and Pitzer and Nex moved into a first-place deadlock, one point in front of Bluebird Cabs and Chinese Students.

The winner of tonight's contest will again take over undisputed possession of first place as the Students and Cabbies battle it out.

The luckless B.C. Forest Products team was the loser of both contests. Butler's Aces edged them 9-7 on Sunday. Pitzer and Nex handed them their eighth loss of the season last night—a 5-0 shutout.

Ken Gunter was the winning pitcher. He allowed the Loggers five hits and never more than one in an inning. Bud Ross hurled for Loggers, giving up eight hits. It was his second appearance in two days. He relieved Barry Jackson in the eighth inning of Sunday's game.

The winning run was scored in the fourth inning. Ray Byers got on base on an error and advanced to second on Bernie Clarkson's single. He stole third and scored when Clarkson was thrown out trying to steal second.

Chick Newman swung the Gasmen's big bat, lashing out a home run in the fifth and a single in the sixth.

League president Ernie Fields announced last night that Thursday's scheduled game between Butler's Aces and Pitzer & Nex will be played on Sunday afternoon so that it will not conflict with the Victoria All-Star-Fulham game at Royal Athletic park.

Brooks Signs Top Grapplers For First Card

Wrestling promoter Rocky Brooks last night announced completion of his first big-time heavyweight card, to be presented at Memorial Arena on Friday.

Brooks said Dr. Lee Hall, rugged 230-pound grappler had agreed to meet Selie Samara, negro matman, in the main event of one hour duration or best-of-three falls.

Unable to get Lord Albert Mills as an opponent for Joe Dusek in the semi-windup, Brooks signed George Tavico, 235-pound wrestler reported to be a crowd pleaser. The match will be best-of-three falls with a 45-minute time limit.

Foul Bay took over first place in the Victoria Senior "B" Lacrosse League by whipping Tillicums 14-8 at Memorial Arena last night. Jokers scored their first victory in the other half of the twin bill by edging Navy 6-4.

In handing Tillicums their first defeat, Foul Bay had a decided advantage in the first two quarters but appeared to tire under pressure in the second half. Bays led 4-1 at the quarter, 7-1 at the half, and 9-3 at three-quarters.

Ex-Shamrock Harry Irwin paced the winners with four goals, and Larry Booth, another Shamrock, Jim Ranson and Tom Joyce notched two each. Al Hudson set up Jack Moffatt for three of Tillicums' goals.

Al Thompson played a sound game in goal for Bays, stopping 16 shots. Bob Aitken turned back 17 at the other end.

Although outshot 35-12, Navy held a fair share of play but could not get its shots away. Tom Walker was superb in the Navy net as the Sailors held Jokers to a 2-1 margin after three periods.

Both games were cleanly fought throughout and no penalties were called by the referees in either contest.

Line-ups:

Jokers—R. Gallop, B. Gallop, V. Gallop, I. Beems, J. McConechy, L. Stinson, L. Scroggie, I. Johnson, Cunningham, Douglas, Curry. Total—8.

Navy—Walker, Wilson, J. McLean, Bolt, McMillan, Leonard, Prisner, Deversell, Jones, Berry, Clarke, Lott, L. Read, Hubbert. Total—4.

Tillicums—Aiken, Long, Hynoski, L. Hodson, Lawrence, L. Jones, Reid, J. Moffatt, Jewel, Oakley, Ritchie, Bourke, J. Bamford, L. Kerr. Total—6.

Foul Bay—A. Toomsang, Gower, R. Bamford, Newton, L. Booth, J. Green, L. Irwin, C. J. Thompson, L. Walker, Kowalyk, Scott, Davidson, J. Ranson, J. Joyce. Total—14.

A's Sign Bob Sturgeon As Infield Reinforcement

Victoria Athletics yesterday announced they had come to terms with Bob Sturgeon, former major and Coast League infielder, and that they expect Sturgeon will be in the line-up tonight when Tri-City Braves open a two-game series.

Sturgeon will likely be installed at shortstop immediately with Gene Thompson moving back to the outfield. When shortstop Bill Dunn gets back in action some time next week, Sturgeon will move to third base, with Lilio Marcucci returning to his usual post behind the plate.

BOB STURGEON

Acquisition of Sturgeon was a surprise even to business-manager Reg Patterson, who was searching everywhere for a needed infielder. Released by Los Angeles last week, Sturgeon phoned Patterson Sunday night to say he was available and terms were agreed at once.

Although he never hit in the higher brackets in a major or Coast League baseball, Sturgeon should find W.I.L. pitching much easier. Defensively, he is highly rated and is doubly valuable because he can do—and has done—a workmanlike job at third and second bases and shortstop, his regular position.

Sturgeon's best season was in 1946, when he hit .296 in 100 games for the Chicago Cubs—72 at shortstop and 21 at second base. He played three infield positions for the Cubs in 1947, appearing in 87 games and batting .254. He was with the Boston Braves in 1948 and came to Seattle in 1949. The Rainiers traded him to Los Angeles for Bill Schuster and he wound up that season with a .272 batting average in 152 games—73 with Seattle and 79 with Los Angeles. He got into 110 games for the Angels last season.

Sturgeon becomes the second new player to join the A's this week. Outfielder Orrin Snyder reported yesterday and was in left field for last night's game against Wenatchee. He hit a single and drew a walk in four trips. Just which of the four outfielders will be in the dugout tonight if Sturgeon plays will be up to Manager Dick Barrett.

Barrett, incidentally, may soon have more problems of a similar nature. The A's are determined to find talent which will bring the club up in the race and a second infield addition is possible in the near future with Portland promising to option a player if he can be signed. A trade is also a possibility with the A's in position to offer a "package" for the right type of player.

Fulham Club Not Afraid Of Callister Park Cinders

VANCOUVER, June 4 (CP) — Even in far-off England the players know about Vancouver's famed cinder-pile soccer pitch.

Fulham of the English first division arrived today for a two-game exhibition series with the British Columbia All-Stars but the lack of turf at Callister Park ...

Other touring teams have had harsh words for Callister and what has been called Canada's worst soccer pitch, but Fulham was different.

"Before we left England we knew two things," said general manager Frank Osborne. "First, that Vancouver would give us the best competition of our tour and second that Callister Park would give us the greatest test of our patience. We won't squeal about the park whatever ..."

GAME TOMORROW

The tourists play their first game at Callister tomorrow night and the second next Saturday. A crowd of at least 8,000 is expected.

Playing manager Bill Dodgin was of the same mind as Osborne.

"If Newcastle can play on the Callister pitch, so can we."

The English club has been undefeated with one drawn game in three Canadian appearances. Saturday night at Edmonton they beat the Alberta All-Stars 3-1.

Veteran ... McCrory, who was ... in Edmonton, is expected to ... tomorrow night. He will be moved up from half-back to inside-right. ...

Matheson, appointed to the field general's spot on Saturday, also captained the B.C. side against the English Football Association All-stars here last year. The tourists were held to a ... draw.

This is a picture of how not to play golf. And I hope it will aid you in analyzing your game. Beginning at the bottom, the stance is too wide open. It will tend to cause the player to swing outside-in across the direction line and either slice the ball or shoot it to the left. ... The right hand should be moved up and over the ... Instead of seeing his thumb and forefinger we should be able to see ... is bent where it should be straight. He's bending too far over. He should stand nearer the ball. The player will swing flat. Reduce Fire Risk, Defense Head Asks

—AROUND TOWN—

Civil defence-conscious Victorians should be reducing the fire risk in their homes and business places.

Leonard G. Hatcher, co-ordinator, yesterday urged all citizens to reduce the fire hazard by getting rid of rubbish around houses and buildings, especially basements.

"This is an urgent request because fire was the worst of all air raid risks in the World War. Lives may depend on how citizens carry out this request," said the co-ordinator.

Because of a speedy mercy mission, the cruiser Ontario returned to Esquimalt yesterday afternoon three days ahead of schedule, completing a spring training cruise to Australia and New Zealand which started late last February.

The cruiser has been away nearly four months, but for [illegible] [illegible] An estimated 1,200 wives [illegible] jetty to greet the warship.

The Ontario was scheduled to return next Thursday, but [illegible] changed last Friday night when the cruiser answered a call [illegible] British tanker [illegible] Aboard the tanker was a young seaman with a broken back and [illegible] He required immediate hospital attention.

SAILOR IN HOSPITAL

[illegible] seaman was in a Victoria hospital.

[illegible] before they saw her. As she approached Esquimalt harbor the ship fired a 13-gun salute to the admiral's flag, and guns at Duntze Head answered with an [illegible] salute to Commodore Hugh Pullen, commanding officer.

[illegible]

PRAISE

They had nothing but praise for hospitality extended them in down-under ports. Many would like to live there. Two of the [illegible] men were married in Australia; their wives are expected to reach this country next fall.

Some comments:

O. [illegible] Frank Voegeli: "A really wonderful trip . . . and you'd never meet anyone more friendly than the people of New Zealand and Australia."

[illegible] Alan Brookbank: "It was [illegible]"

A.B. [illegible]

[illegible] bottle of good rum only costs about a dollar.

[illegible] "These [illegible] we wear were [illegible] friendship [illegible] We had a great time."

A.B. [illegible] "I'd like to [illegible]"

A.B. [illegible] "It's nice down there, but I'd still rather live in Canada."

SOUVENIRS

Practically all Ontario's men, of course, returned with large quantities of souvenirs. These were all [illegible] over by a battery of [illegible] Customs officers who boarded the vessel [illegible]

Ontario will remain at her jetty for about two weeks, then begin a series of shorter training cruises in [illegible] waters.

Seven-Hour Battle Quells Bush Blaze

SAANICH firemen battled a stubborn bush fire on grounds of the Provincial Mental Home for nearly seven hours yesterday afternoon before subduing it.

The blaze covering about three acres of high ground behind [illegible] Road off [illegible] was reported about 2 p.m.

Two trucks attended, returning at 8:45 p.m.

The fire was about half a mile from the nearest residence, firemen reported.

Cause of the blaze was unknown.

Demand Grows For Pickers On Fruit Farms

Demand for berry pickers will be general by Wednesday and by the week-end there will be work for all those wishing to pick berries, the Dominion-Provincial Farm Labor Service reported yesterday.

About 100 pickers have been placed in addition to pickers recruited by growers, the service estimated. Growers were [illegible]

When the berry season is at [illegible] extra buses will be available to pickers, labor official [illegible] said.

Wages for pickers as set by the Saanich Producers [illegible] are: strawberries, 60 cents a crate, two four cents a pound; raspberries, 50 cents a crate, [illegible] three cents a pound; [illegible] currants, [illegible] cents a pound.

To Give Talk On Literature

Cruiser Brings Injured Man to Hospital

Cruiser Ontario raced home three days ahead of schedule to bring badly injured British seaman to hospital. Gordon Lee, 17½, fell from stack of British tanker and broke back and several ribs. Ontario answered call for help, and sped 1,400 miles to get medical aid for the seaman. Lee is from Kent.

Vacation in California Costs Writer Only $50

Eileen Learoyd [illegible] They made the round trip for $50 each.

By EILEEN LEAROYD

We give Columbus full credit for discovering America in 1492.

Catherine Mead and I didn't get around to our personal discoveries until spring 1951 but a number of changes have taken place which justify another report.

We travelled 2,500 miles, camped in state parks and on beaches, and when rain made this impossible we searched out inexpensive motels.

Apart from the biggest [illegible] in the world we saw the [illegible] the smallest and the widest [illegible] now the superlative just comes naturally.

FEARED TROUBLE

We travelled in a small English car, although warned by several people that the tiny engine would overheat and explode with the strain. For information of holidayers with small cars, it got 50 miles to the gallon, travelled to Carmel, California and back again on $11 worth of gasoline and 50 cents' worth of oil.

Going down we stopped on the summit of every mountain for five minutes to cool the engine and recite short prayers. Coming back we had no time for prayers or stops and the car behaved equally well.

For our trip we loaded the car with two pup tents, two sleeping bags, a portable stove, four blankets, two air mattresses, flashlights, an axe, two pillows, two suitcases, two zippered bags, two [illegible] a camera, a variety of cooking utensils, a typewriter and all the groceries we could carry.

We each took $50.

FIRST STOP

Our first stop, an easy run from Port Angeles, was Lewis and Clark State Park near Chehalis in Washington.

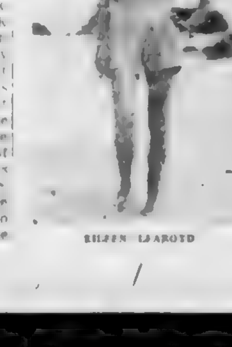

It was dusk when we arrived and it had just stopped raining. As we entered the dark dripping forest our spirits sank as low as the mud underfoot. However we were rescued by Ranger Bill Glen who said that as we were the only campers in the entire 12 acres we might stay in the camp kitchen. Due to his kindness we slept in the height of luxury with a roof overhead, a log fire beside us and a thick cement floor beneath. That excellent structure was, however, not designed to keep out wildlife and in the morning we found chipmunks stalking us in a very friendly manner.

MANY PARKS

Washington has 12 state parks, all well equipped and supervised.

We were not able to camp in Oregon as the parks there were not yet organized, properly equipped or supervised until next spring.

California is the camper's delight. Not only for the scenery [illegible]

EILEEN LEAROYD

[illegible] that the facilities provided are in every way complete. [illegible]

COAST CAMP

[illegible]

Speaking of the redwoods which are the oldest, largest and widest trees in the world, south of Crescent City we arrived at a [illegible] called "Trees of Mystery." The sign "Trees of Mystery" had been haunting us for hundreds of miles. Many of the cars we passed bore bright yellow placards proclaiming the mysteries every few miles [illegible] signs [illegible] us to stop to ex[illegible]

[illegible] a few more [illegible]

[illegible] roots.

CATHEDRAL TREE

The climax of our [illegible] walk through the woods was the sudden appearance of [illegible] [illegible] the Cathedral Tree. As we passed through the gate leading [illegible]

[illegible]

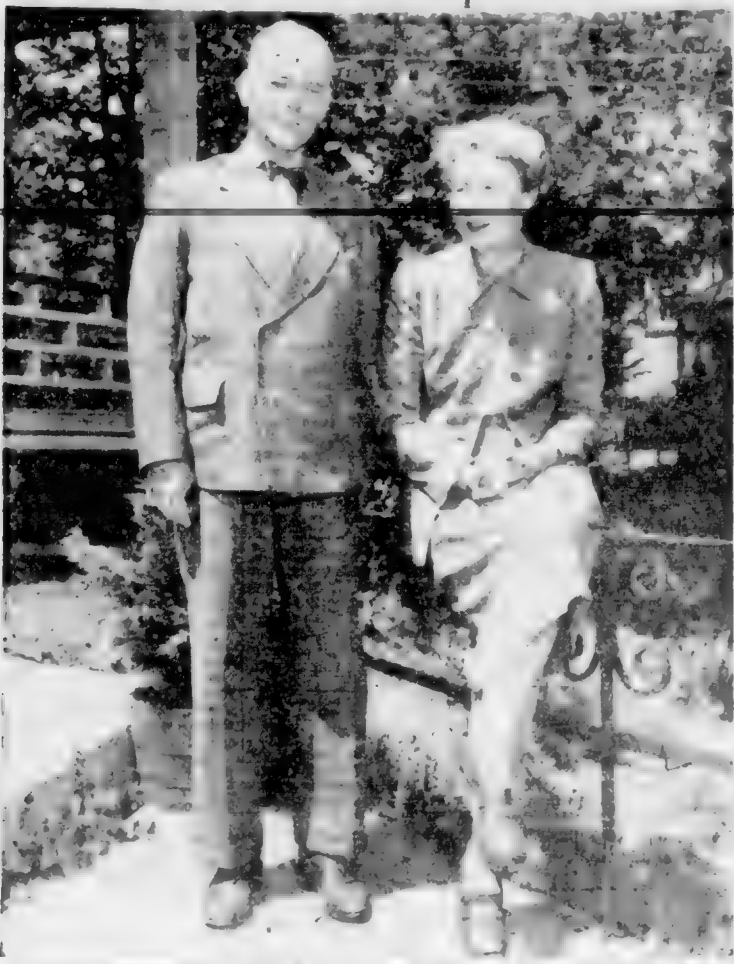

Later on down the state's Redwood Highway we saw the [illegible] tree in the world. It stands a regal 364 feet.

NIGHT BY SEA

We camped [illegible] Monterey [illegible] state park to Carmel [illegible] was 11 miles away so we decided to camp on the beach by the sea. We were sure it would be romantic with only the sand and the stars, the sound of the surf pounding on the shore and the [illegible] of the phosphorescence [illegible] in the waves.

The sand on the beach was [illegible] and for the rest of our stay in the Monterey Bay area we very cowardly slept in a cheap motel.

NOTICE TO CONTRACTORS

SEALED TENDERS for the General Contracts, including all Trades, endorsed "Tender for School Construction, Saanich," will be received by the Secretary-Treasurer, School District No. 63 (Saanich), Sidney, Vancouver Island, B.C., at or before 7.00 p.m. Tuesday, June 12, 1951.

The work consists of Alterations and Additions to Elementary Schools at Keating, Saanichton, Prospect Lake and Mt. Tavish and High School Annex at Mt. Newton, which will be known as Project "A."

Working Drawings and Specifications will be available after 10.00 a.m., Tuesday, June 5, 1951, at the office of the Secretary of the School Board and at the office of the Architects, Sharp & Thompson, Berwick, Pratt, 1350 Robson Street, Vancouver, B.C.

A certified cheque for Five per cent (5%) of each tender or total tender submitted must accompany each tender, and shall be forfeited if the party tendering declines to enter into contract when called upon to do so. On award and signing of the contract, the successful tenderer shall furnish to the Board of School Trustees a surety bond equal to fifty (50) per cent of the contract price. On receipt of this bond, the certified cheque submitted with the tender will be returned.

The Board of School Trustees and the Department of Education reserve the right to reject any or all tenders without explanation. No tender having any qualifying clauses will be considered.

A deposit of Ten Dollars ($10.00) is required for each set of plans and specifications and will be returned upon receipt of same in good condition.

SHARP & THOMPSON, BERWICK, PRATT.

For Board of School Trustees, School District No. 63 (Saanich) Sidney, B.C.

DATED at Vancouver, B.C., June 1, 1951.

Navy returned to its winning ways by holding off a fast-closing Esquimalt team to pull out a 6-5 victory in a Senior "B" Men's Softball League game at Bullen Park last night.

B.C. Forest Products scored its fourth win of the season by beating Civil Service, 12-6, in a slugfest at Macdonald Park.

Both clubs batted out 15 hits but the Loggers bunched eight of theirs in the eight-run fifth inning. Bill Dickie led the fifth-inning attack with a three-run triple.

Stan Wiseman batted out a two-run homer for the Servants in the second inning.

Baseball Gate Drops Despite Game Increase

NEW YORK, June 4 (AP).—Big league baseball attendance is about 8 per cent behind last year on a per-game basis, although the total draw is 97,585 ahead of the 1950 figures.

The difference comes from the games played, 297 this year through Sunday as compared with 269 last year. Consequently, the American and National Leagues have drawn 4,315,634

Despite the larger ball parks in the American, the National League is showing the way with 2,297,367, well-distributed among all eight teams. Figuring an average home attendance, the National for 1951 is 14,822 to 15,338 last year—a decrease of 3 per cent.

Philadelphia and St. Louis are the weak sisters of the American, both running behind last year's sorry figures. As a result, the American has drawn 2,018,267 paid or 14,213 per home date. The 1950 average at this time was 16,100—a drop of 12 per cent.

Hurler Paces Ramblers To Double Win

Hurling both ends of a doubleheader, Jocelyn Richmond permitted only one hit as Moose Ramblers took both ends of an exhibition women's softball doubleheader from Nanaimo at Lower Central on Sunday.

Miss Richmond struck out 13 in the opener as Ramblers took a 5-0 decision. She missed a perfect game when she walked the second batter in the fourth.

Ramblers took the second game 6-0 with Miss Richmond losing a second no-hitter when the second batter in the second inning singled. Miss Richmond picked the runner off first and again allowed only one walk while striking out 13.

END OF THE LINE

The United States Golf Association has warned golfers to weigh all balls of a certain make before the open qualifying tests. Seems a lot were found to be overweight before the company corrected things and a golfer who uses a too-heavy ball risks disqualification. . . . Story from North Carolina is that 15 clubs were bidding for Billy Joe Davidson, the kid who got more than $100,000 from the Indians. But the club he really favored didn't want to bid for fear of being accused of "covering up."

J. A. Barnett Funeral Today

Funeral services will be held today at 2:30 p.m. at Sands Memorial Chapel for Joseph Arthur Barnett, 57, who died Sunday at the Veterans' Hospital.

Mr. Barnett was born in Malvern Link, Worcester County, England and had been a resident of Victoria for the past eight years, and previously of Vancouver.

He served as a dispatch rider during the Great War with the C.F.C. and was a member of Zion Lodge No. 77, A.F. and A.M., G.R.B.C., Vancouver.

He is survived by his wife Nellie at home, 404 Cook Street; four brothers, Harry of 120 King George Terrace; Tom, John and Heming in England; one sister, Mrs. H. B. Thomas of Vancouver and nieces and nephews.

The funeral service will be under the auspices of the Zion Lodge No. 77, with Rev. George Brown officiating.

It will be followed by cremation at Royal Oak crematorium.

To Attend Convention

The 37th annual convention of the Baptist Women's Missionary Society of British Columbia was opened yesterday in West Summerland. Mrs. J. Ingram Smith, president, is presiding over the convention. Others taking part from Victoria are Mrs. George Anstey, secretary; Mrs. N. Phillips, director of the home and foreign mission department, and Mrs. J. C. Barton, program chairman. Mrs. W. W. McGill, director of Victoria's Garden Library and well known for her work with pre-school children's groups, will be the special speaker in the education department session, her subject being "A Child Shall Lead Them." Other delegates attending the women's convention from Victoria will include Miss Ida Elliott, Miss Marge Sommerville, Mrs. E. E. Robinson, Mrs. James E. Smith, Mrs. J. C. Barton, Mrs. Amos Robinson and Mrs. E. H. Crimp.

Uncle Wiggily Story - - - By Howard Garis

A JOLLY PARTY

Uncle Wiggily stood for a moment looking down at Jumpie Umpie and Tumble Downie, the yellow jumping mice children. They had come to visit their cousins, Jollie and Jillie Longtails, but Jumpie Umpie and Tumble Downie got lost and Uncle Wiggily said he would show them where the Longtails lived.

Jumpie and very happy because he was soon going to see his cousins. And to show how happy he was, Jumpie leaped up in the air and over the stump where Uncle Wiggily had been sitting. Tumble Downie, his brother, tried to jump but could not. Down he fell after turning two or three somersaults in the air.

"You must not try to jump, Tumble Downie," said his brother. "You have no long tail and you need a long tail to help you jump, to balance you and keep you from somersaulting."

"I know it," said the other yellow mouse. Tumble Downie's tail had been cut off, by accident, when he did not get out of the way of a farmer's moving machine that was cutting hay.

"Well, if we are going to see Jollie and Jillie," said Jumpie as he made another leap far up in the air, "if we are going, let's go."

"But you said, Uncle Wiggily," spoke Tumble Downie, "that you had a fine idea. Is it an idea that will help me to get to my cousins' house quicker? Because, you know, I must go slow because I have no tail."

"My fine idea is this," said the rabbit gentleman as he twinkled his pink nose. "I will put you in one of my pockets, Tumble Downie. Then I will hop with you to the home of Jollie and Jillie. Your brother can jump along beside me because he has a long tail."

"Let's go!" exclaimed Jumpie Umpie. So they started off, Tumble Downie in Uncle Wiggily's pocket and Jumpie Umpie leaping along by himself.

By the time Uncle Wiggily and the two yellow, jumping mice reached the home of Jollie and Jillie, the Longtail children were home from Hollow Tree School. Jollie, Jillie and Squeakie Eekie were out in front of the house, playing tag. They stopped running when they saw Uncle Wiggily and Jillie said:

"Who is that little mouse looking out of your pocket?"

"That is your cousin, Tumble Downie," answered the rabbit gentleman. "He and his brother, Jumpie Umpie, have come to visit you."

"I don't see Jumpie Umpie," said Jollie.

"I don't, either," squeaked Jillie. "What a funny name!"

"Here I am!" called the other yellow mouse as he leaped through the air, landing beside Uncle Wiggily and the Longtail children.

"Oh, what a wonderful jumper you are!" exclaimed Jillie.

"And what a lovely color your fur is," said Jollie.

Just then Tumble Downie fell out of Uncle Wiggily's pocket and landed in the grass. But he didn't get hurt for he was used to falling because he had no long tail.

"Where is your tail, Tumble Downie?" Jollie inquired. And when Tumble Downie explained how his tail had been cut off, Jollie and Jillie said they were sorry.

"Are you sure these queer, jumping, yellow mice are our cousins, Uncle Wiggily?" whispered Jillie.

"Oh, yes," answered Mr. Longears. "Though they are different from you, they are still your cousins."

"Then let's give them a jolly party!" exclaimed Jillie.

"We will invite a lot of other animal children," said Jollie.

Soon there came hurrying to the Longtail house many rabbits, puppies, kittens and other animal boys and girls. All of them were glad to see the yellow mice. Mrs. Longtail set out ice cream and cake and many other good things to eat. Then Buster the Rabbit Scout said:

"Let's play some games. Let's play a jumping game."

"There is going to be a surprise in this game," said Uncle Wiggily. And there was. I will tell you about it tomorrow if the wash cloth doesn't fall out of the bath tub and tickle the cake of soap.

Voids Must Keep You Free of Body Odor, Head to Toe, the Whole Month of June or it Won't Cost You a Cent!

Here's how you can try new, amazing VOIDS WITHOUT RISKING A CENT!
Ask at any drug counter for a 36 tablet, month's supply package of Voids at $1.25, take it home and before retiring take a bath or shower. (Do this to insure removing any underarm cream deodorant you may be using or tell-tale traces of odor on any part of the body.) Swallow your first Voids tablet before going to bed, take another next morning and thereafter only one Voids a day before breakfast each morning. (Occasionally, in excessively hot weather or in stubborn cases, one extra tablet a day should be taken.) VOIDS ARE AS HARMLESS AS THE FOOD YOU EAT so never worry over taking the odd extra tablet. DO NOT USE YOUR REGULAR DEODORANT while you're taking Voids as YOU WILL NOT NEED IT. Voids are all you need to protect you head to toe from all body odor, including underarm, feet, scalp, excessive glandular activity, nervous perspiration or more intimate conditions.
If, after taking 18 Voids according to directions, you are not completely satisfied and delighted with results, mail the remaining half package to The Voids Company Ltd., 2356 Gerrard St. E., and we will refund your $1.25 plus your cost of postage.
NOTE: A supply of Voids for clinical purposes will be sent free of charge to any medical doctor, dentist or recognized hospital or institution. 144-V

Wage Demands By Electricians Affect 200 Here

Wage demands by the International Brotherhood of Electrical Workers (A.F.L.-T.L.C.) were made final last night at a Vancouver meeting of Victoria and Vancouver locals.

The demands, affecting B.C. Electric Co. and Humble and Rumble Ltd. workers here and those of a third company, Peterson Electrical Construction Company Ltd. at Vancouver, are not expected to be made known until the three companies have been notified.

Approximately 200 Victoria workers would be affected. Negotiations will be separate for both companies here.

Expiry date of the present contracts is July 31.

Traffic Flow Seen Faster By Car Barge

Purchase of a railcar barge by the Pacific Great Eastern Railway should help speed present traffic between Squamish and Vancouver, and enable quick movement of increasing traffic should the rail line be deferred, government observers said here yesterday.

It's expected that an announcement will be made following the return of Finance Minister Herbert Anscomb from eastern Canada, as to whether the rail link will be built.

Premier Byron Johnson has said that immediate construction of the line depends upon steel supplies, and ability to negotiate loans at reasonable interest rates.

B.C. Pharmacists Meet To Mark Diamond Jubilee

British Columbia pharmicists gathered in Vancouver yesterday for the official opening of a four-day convention celebrating the diamond jubilee of B.C. pharmacy.

The convention will be highlighted by a museum exhibit depicting "pharmacy through 60 years."

An exhibit of interesting curios, including the Italian Pharmacopeia of 1747, will give a visual history of 4,000 years of pharmacy.

Health Minister Douglas Turnbull will open the new college of pharmacy building on the U.B.C. campus at 3 p.m. tomorrow.

The convention will include a full slate of meetings and social functions.

Keating School Chief Winner

Keating elementary school walked off with the lion's share of honors at Saanich Elementary Schools' sports day held Friday on the grounds of the Agricultural Hall.

Keating students won for the school the aggregate points cup for small schools, the percentage shield, awarded to the school with most points per student, and tied with Cordova Bay school for the girls' relay cup.

Cordova Bay school won the aggregate cup for larger schools and Royal Oak school won the boys' relay cup.

Victoria Delegates Going To Library Conference

Three Victoria delegates will attend the annual Canadian Library Association conference in Toronto June 10 to 15.

Willard Ireland, Provincial librarian and archivist, will be accompanied by Margaret J. Clay, city librarian, and Georgiana Wilson, of the Victoria Public Library.

Mr. Ireland will speak at the sessions on United Nations documents and microfilming records. He will preside over meetings of the legislative libraries committee.

The conference is being held in conjunction with the 49th annual convention of the Ontario Library Association. Officials from the United States also are expected to attend.

AORANGI STRIKE

The crew of the 17,486-ton liner Aorangi, due to sail from Melbourne, Australia, for Vancouver Thursday, walked off the ship yesterday as labor disputes brought a slow paralysis to Australian waterfronts.

Longshoremen of the Waterside Workers' Federation have black-listed ships arriving from New Zealand, where a dock strike is in progress. The Aorangi provides the only passenger service between Australia, New Zealand and Canada.

Mediation Hearings to Open Today On Dispute Over Trail Union Dues

A mediation committee to settle a dispute over payment of union dues by employees of Consolidated Mining and Smelting Co., at Trail, opens hearings here today before Chief Justice Gordon Sloan.

R. D. Perry will be the company representative while Harvey Murphy will represent locals of the International Union of Mine, Mill and Smelter Workers at Trail and Kimberley.

The union seeks provision of the Rand Formula, that all employees of Cominco governed by the working agreements, shall pay union dues regardless of membership in the union.

A joint statement said the parties have agreed to be bound by the decisions and that the Calgary local of the union also will be bound.

Collective bargaining on other points is continuing.

Guide's Ashes To Be Strewn On Inlet Water

The ashes of the late Hugh Edward Creed, well-known Vancouver Island fishing guide, will be scattered over Saanich Arm which he loved and knew so well.

Mr. Creed died Friday afternoon while preparing to take a fishing party on a trip aboard his boat, Tern.

Funeral services will be held Friday, leaving McCall Bros. Chapel at 2.30 p.m. for St. Stephen's Church, Mount Newton Crossroad, where Archdeacon W. C. Western will officiate. Cremation will follow and the ashes will be scattered at a later date.

NANTWICH, Cheshire, Eng. (CP)—Two policemen were locked in a cell when the door accidentally closed as they were feeding a prisoner. The only key was in one of the policemen's pockets and he couldn't reach the lock. They were freed after a new key had been made.

Sclerosis Body Hopes to Assist City Sufferers

Victoria chapter of the Canadian Multiple Sclerosis Association will hold an annual meeting in Red Cross House on Fort Street at 8 p.m., June 6.

The chapter hopes to set up a program to assist victims of the crippling disease. There are said to be 70 sufferers in this area.

Chief speaker at the meeting will be Douglas Roberts, now of Victoria, former head of the Eghan rehabilitation centre in England.

Col. R. B. Longridge is president of the chapter.

Yarrows Gets Order For $400,000 Tug

MARINE AND TRAVEL NEWS

Receipt of an order for a 100-foot, ocean-going steel tug by Yarows Ltd. from Powell River Company Ltd. was announced yesterday by H. A. Wallace, head of the shipyard.

The tug will have a beam of 26 feet and a draft of 13½ feet. She will be powered by a 700-horsepower Union Diesel, and will be equipped with the latest equipment for the towing of flat booms and Davis rafts.

She was ordered for the Kingcomb Navigation Company, subsidiary of Powell River Co., Ltd. The order was placed directly by Harold Foley, president of the Powell River firm.

"It is truly gratifying to see this company, which does most of its business in British Columbia, order this tug from a B.C. yard," said Mr. Wallace. "It was ordered despite the fact second-hand towing craft can be purchased at less cost from other countries."

The new tug will cost approximately $400,000.

Plans for the new vessel are now being drawn up at Yarrows Ltd., under the direction of Gilbert Anderson, naval architect, and J. Smith, chief engineer draftsman.

Actual construction, Mr. Wallace said, will start in about two months, and delivery is scheduled early next year. As hull work progresses, a limited number of additional workers will be needed at the Yarrows yard.

With exception of the tug's engine, she will be an all-Canadian vessel.

FREIGHT SHIPMENTS

Canadian Pacific Railway docks now operate on a 40-hour week, and therefore, with few exceptions, freight shipments will not be accepted or delivered on Saturdays or Sundays.

Canadian Pacific Railway officials announce in order to maintain schedules and ensure proper handling, freight shipments from Victoria must be delivered to local docks as follows:

For Vancouver and transfer points beyond: Not later than 5 p.m., Monday to Friday, inclusive. Perishable freight will be accepted, by arrangement on Sundays from 7 to 9.30 p.m.

For Seattle: Not later than 3 p.m. Monday to Friday.

West Coast of Vancouver Island Monday-to-Friday sailings: freight will be accepted up to 5 p.m. on the day prior to sailing, and perishables only to noon of sailing date. Saturday sailings: perishables only accepted to noon. Sunday sailings: perishables accepted up to 9.30 a.m.

Parliament Described As Full-Time Job Now

OTTAWA, June 4 (CP). — Two Opposition party members agreed today that Parliament no longer is a "sideline" for members. It has become a full-time job.

Both agreed that sessions would have to be lengthened.

M. J. Coldwell, C.C.F. leader, and Solon Low, Social Credit leader, joined in that observation after Prime Minister St. Laurent announced that another session will be called next fall to deal with old-age pensions legislation and other bills left over from the current session.

Mr. Coldwell said members now must devote their full time to parliamentary business. Parliament, therefore, should meet on an annual basis, with the time of sitting determined early in the year and with a summer recess.

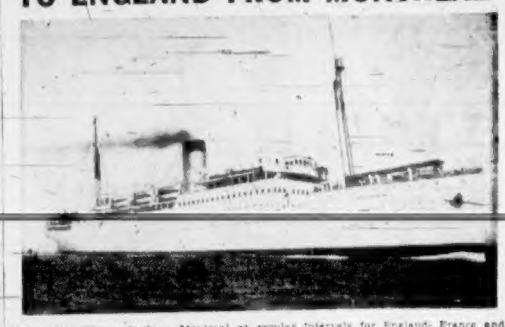

Mr. Low suggested parliamentary sessions begin late in the fall, with a Christmas recess. The sitting then could be resumed to mid-January and continued until the parliamentary business was finished.
